Planet Party A World Of Celebration:

Planet Party Iain Gately, 2004-09-01 Essential reading for the travelling or armchair hedonist Planet Party is a tour of the world's greatest festivals a multicultural voyage of celebration across the continents and through the seasons Its itinerary includes such famous events as the Munich Oktoberfest Trinidad Carnival and the running of the bulls in Pamplona and also lesser known if equally exciting spectacles like Derbyshire's 1000 a side Shrovetide football match and the Burning Man Project a fire festival in a remote American desert In addition to providing an impression of what it feels like to be at each event Planet Party examines the history and philosophies behind them exploring matters as diverse as ideal beauty the Hindu concept of rebirth and the origins of beer drinking Stimulating and richly coloured Planet Party is an erudite study of our love of celebration

Subject of the Event Sebastian Huber, 2016-05-05 What does falling in love have in common with the fall of the Berlin Wall Or the fall of the Twin Towers In the light of postmodernism's programmatic critique of a humanist notion of the subject and an emphatic understanding of events Subject of the Event shows that selected American novels after 2000 offer an alternative to the death of the subject As the first book to comprehensively engage with Alain Badiou's writings outside of a philosophical context Subject of the Event analyzes five critically acclaimed novels of the new millennium Cormac McCarthy's The Road 2006 Jess Walter's The Zero 2006 Mark Z Danielewski's Only Revolutions 2006 Paul Beatty's Slumberland 2008 and Thomas Pynchon's Against the Day 2006 and argues that they create different subjects of the event that are empowered with reagency The subject of the event and its empowerment what this book calls reagency implies that subjects only evolve out of their confrontation with the revolutionary impetus that events propel Unlike a humanist capability of having agency reagency is defined as a repetitive subjective praxis that is contingent upon events which is given a concrete literary form in the novels under investigation Sebastian Huber explores how the American penchant for events new beginnings clean slates apocalypse is being critically dealt with in the novels at hand while still offering an emphatic idea of singular disruptions that open up ways for subjects to affirm and become empowered by the new propositions of these happenings

The Nature of Space Milton Santos, 2021-07-21 In The Nature of Space pioneering Afro Brazilian geographer Milton Santos attends to globalization writ large and how local and global orders intersect in the construction of space Santos offers a theory of human space based on relationships between time and ontology He argues that when geographers consider the inseparability of time and space they can then transcend fragmented realities and partial truths without trying to theorize their way around them Based on these premises Santos examines the role of space which he defines as indissoluble systems of objects and systems of actions in social processes while providing a geographic contribution to the production of a critical social theory

1989 as a Political World Event Jacques Rupnik, 2013-09-24 This book is not about the events of 1989 but about 1989 as a world event Starting with the fall of the Berlin Wall and the collapse of the Soviet bloc it examines the historical significance and the world brought about by 1989 When the Cold War ended in Europe it ushered in a world in which the international agenda is set outside Europe in America or Asia The book critically examines and moves beyond some of the conveniently simple paradigms proposed in the nineties by leading political scientists such as Fukuyama and Huntington to show how the events of 1989 meant different things to different parties This was an anti utopian revolution a symbol of the possibility of non violent transitions to democracy which raised the hopes of world wide democratic changes

Contributors show how 1989 can be seen as the founding moment of a globalized world but equal attention should be given to the dispersion of its meanings and the exhaustion of some of its main trends associated with the post 1989 era Europe was reunited yet it is in crisis Twenty years on global markets have brought about a global financial crisis The fall of the Berlin Wall was celebrated as the advent of free movement in a world without borders Now however we can see that new borders walls fences have since been built With an introductory essay by Vaclav Havel 1989 as a Political World Event will be of interest to scholars of European Politics and International Relations *The Christ has come.
