

Planning Local Economic Development

D Kirk

Planning Local Economic Development:

Planning Local Economic Development Nancey Green Leigh, Edward J. Blakely, 2016-11-23 Written by authors with years of academic regional and city planning experience the classic *Planning Local Economic Development* has laid the foundation for practitioners and academics working in planning and policy development for generations With deeper coverage of sustainability and resiliency the new Sixth Edition explores the theories of local economic development while addressing the issues and opportunities faced by cities towns and local entities in crafting their economic destinies within the global economy Nancey Green Leigh and Edward J Blakely provide a thoroughly up to date exploration of planning processes analytical techniques and data and locality business and human resource development as well as advanced technology and sustainable economic development strategies

Planning Local Economic Development Edward J. Blakely, Nancey Green Leigh, 2010 Since the appearance of the first edition in 1990 *Planning Local Economic Development* has become the foundation for an entire generation of planners and academics teaching planning Building on the success of its predecessors the Fourth Edition continues to explore the theories of local economic development and address the dilemmas communities face The authors investigate planning processes analytical techniques business and human resource development as well as high technology economic development strategies Written by authors with many years of academic regional and city planning experience this book will prove invaluable to professors of economic development urban studies and public administration Economic development specialists in local and municipal government as well as nonprofit organizations will also find this an essential reference New to the Fourth Edition Completely revised and updated with current research Provides more guidance oriented to third world readers Includes more on issues of urban sustainability such as energy and brown field development Contains added material on the redesign of neighborhoods for sustainable purposes to include new firms and recycling techniques and technologies as new economic engines

Planning Local Economic Development Edward J. Blakely, 1989 *Planning Local Economic Development* addresses the dilemma that local governments and community groups face in their endeavor to improve the local economic base and increase the community's control over its own economic destiny The author describes the theories of economic development and provides the first complete analysis of development at the local level offering suggestions of how local leaders can improve the economic and employment base of their locale

Planning Local Economic Development Nancey Green Leigh, 2024-11-01 Author Nancey Green Leigh brings years of academic and professional experience to this classic text which offers a comprehensive look at the basic tenets of local economic development planning The book explores the theories of local economic development while addressing the issues and opportunities faced by cities towns and local entities in crafting their economic destinies within the global economy The new Seventh Edition is updated with an increased focus on sustainability and equity including local economic development issues arising from the global COVID 19 pandemic and significant shifts in the global economy *Planning Local Economic*

Development Edward J. Blakely, Ted K. Bradshaw, 2002-05-22 Exploring the theories of local economic development that are relevant to dilemmas facing communities today this third edition expands on issues such as the planning process analytical techniques and high technology strategies

Theories of Local Economic Development James E. Rowe, 2016-12-05 In economic development theory and practice exist as two seemingly separate realities Academics strive to develop or refine theory by drawing on abstract concepts about the way people behave and institutions work while practitioners draw from a stock of experiences By bringing together leading theorists and practitioners such as Blakely Blair McCann Luger Gunder Stough and Stimson this book provides the first comprehensive overview of local economic development theories for over fifteen years It explores the theory behind the key concepts that every economic practitioner must understand and in doing so ties together the various theories from across the disciplines to practice

Handbook of Economic Development Kuo-Tsai Liou, 1998-06-25 Featuring over 1900 references drawings and tables and drawing on disciplines as diverse as political economics public management and urban affairs this versatile text offers comprehensive information on major policy and managerial issues important to local and national economic development Pulling together the work of over 40 researchers the book examines the role of government in economic advances and reform provides a complete up to date survey of the literature on local and national economic development details local and regional economic progress in the US adopts an innovative interdisciplinary approach to the study of economic expansion and more

Local Economic Development Planning Avrom Bendavid-Val, 1980 This report details the process of planning for local economic development The planning process discussed enables a community to determine the appropriate meaning of economic development for itself to examine the resources available for it to identify the best courses of action for achieving it and to plot the means of carrying out those course of action

Local Economic Development In The Developing World Etienne Louis Nel, Christian Myles Rogerson, Over the last two decades the concept and practice of Local Economic Development LED has gained widespread acceptance around the world as a locally based response to the challenges posed by globalization devolution local level opportunities and economic crises Support for local economic development is now firmly on the agenda of many national governments and key international agencies This volume examines the debates about Local Economic Development and examines some of the unfolding experiences of LED in the developing world The focus is upon the region of southern Africa and more especially upon post apartheid South Africa LED emerged in South Africa as one of the more significant post apartheid development options being pursued by empowered localities with the overt encouragement of national government Elsewhere in the developing world much interest surrounds the experience of LED in post apartheid South Africa which is seen as a laboratory for experimentation innovation and learning The seventeen chapters in this book examine the range of LED interventions that have been the basis for experimentation in the last decade including both pro market as well as pro poor interventions Key themes include debates about the most appropriate policy directions for LED its contribution towards sustainable

development the role of social capital cluster support public procurement eco development good governance and tourism led LED The book also contains a series of detailed case studies on the implementation of LED in South Africa and the wider region of southern Africa including analyses of LED undertaken at a variety of scales from the provincial metropolitan and small town level Until now most research on local economic development has focused on the developed world This volume breaks new ground in applying LED policy and practices to problems specific to the developing world It will be of interest to scholars of development studies urban and regional planning human geography and urban studies This compelling and comprehensive book provides a look at the innovative including pro poor local economic development strategies being used in South Africa The contributors to Local Economic Development in the Changing World The Experience of Southern Africa are among the very best scholars in the field Gary Gaile University of Colorado Etienne Nel and Christian Rogerson have produced an excellent book on local economic development in South Africa The chapters in this timely volume contain many valuable lessons for both the developing and the developed world Of particular importance is the policy focus of Nel and Rogerson on investing in and empowering low income workers entrepreneurs families and neighborhoods Because of the special emphasis on inclusive economic development strategies this book is a very useful guide to what the Prague Institute calls Treating People and Communities as Assets Dr Marc A Weiss Chairman and CEO Prague Institute for Global Urban Development Etienne Nel is associate professor in the Department of Geography of Rhodes University Grahamstown South Africa Christian M Rogerson is professor of human geography School of Geography Archaeology and Environmental Studies University of Witwatersrand Johannesburg

Running the Numbers: A Practical Guide to Regional Economic and Social Analysis: 2014 John Quinterno, 2014-12-18 Through use of practical examples and a plainspoken narrative style that minimises the use of maths this book demystifies data concepts sources and methods for public service professionals interested in understanding economic and social issues at the regional level By blending elements of a general interest book a textbook and a reference book it equips civic leaders public administrators urban planners nonprofit executives philanthropists journalists and graduate students in various public affairs disciplines to wield social and economic data for the benefit of their communities While numerous books about quantitative research exist few focus specifically on the public sector Running the Numbers in contrast explores a wide array of topics of regional importance including economic output demographics business structure labour markets and income among many others To that end the book stresses practical applications minimises the use of maths and employs extended chapter length examples that demonstrate how analytical tools can illuminate the social and economic workings of actual American regions

Understanding Local Economic Development Emil Malizia, Edward J. Feser, Henry Renski, Joshua Drucker, 2020-10-05 This book offers insights into the process and the practice of local economic development Bridging the gap between theory and practice it demonstrates the relevance of theory to inform local strategic planning in the context of widespread disparities in regional economic

performance The book summarizes the core theories of economic development applies each of these to professional practice and provides detailed commentary on them This updated second edition includes more recent contributions regional innovation agglomeration and dynamic theories and presents the major ideas that inform economic development strategic planning particularly in the United States and Canada The text offers theoretical insights that help explain why some regions thrive while others languish and why metropolitan economies often rise and fall over time Without theory economic developers can only do what is politically feasible This text however provides them with a logical tool for thinking about development and establishing an independent basis from which to build the local consensus needed for evidence based action undertaken in the public interest Offering valuable perspectives on both the process and the practice of local and regional economic development this book will be useful for both current and future economic developers to think more profoundly and confidently about their local economy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The Routledge Handbook of Tourism Impacts Dogan Gursoy, Robin Nunkoo, 2019-04-29 This handbook explores and critically examines both positive and negative impacts of tourism development focusing on the past present and future issues challenges and trends from a multidisciplinary global perspective Through a comparative approach involving international case studies this book explores our understanding of tourism impacts and contributes to the theoretical development on relationships between tourism impacts and community support for tourism development This handbook focuses on a variety of geographical locations drawing from the knowledge and expertise of highly regarded academics from around the world Specifically it explores the adoption and implementation of various tourism development and impact management approaches in a wide range of global contexts while identifying their trends issues and challenges It addresses strategies relating to innovation sustainability and social responsibility and critically reviews the economic sociocultural environmental political and technological impacts of tourism The text also identifies future trends and issues as well as exploring the methods used to study tourism impacts Conveying the latest thinking and research this handbook will be a key reference for students researchers and academics of tourism as well as development studies geography cultural studies sustainability and business encouraging dialogue across disciplinary boundaries and areas of study
