

THE EARLY YEARS LEARNING FRAMEWORK PLANNING CYCLE

Diagram 2

The planning cycle describes the process educators follow in planning, documenting, responding to and supporting children's learning. Educators make many decisions about curriculum planning based on their professional knowledge, their knowledge of children and local contexts, and their understanding of the Vision, Principles, Practices and Learning Outcomes of the Framework. The steps, sequences and components of the planning cycle that are identified and explained in Diagram 2 can occur spontaneously, 'in the moment', throughout the day or over a period. Educators use these 5 components to inform their thinking about children's experiences and improvement of practice to develop and implement a curriculum that is inclusive of all children.

It is important to note that **documentation** occurs at every stage of the planning cycle.
