Plant Taxonomy Phytogeography And Related Subjects The Davis And Hedge Festschrift:

The Davis & Hedge Festschrift, Commemorating the Seventieth Birthday of Peter Hadland Davis and the Sixtieth Birthday of Ian Charleson Hedge Kit Tan, Peter Hadland Davis, Ian Charleson Hedge, 1989 This is the first book devoted exclusively to the analysis of the Nazis radio effort against the United Kingdom during the Second World War Propaganda is presented in context the purposes behind it the changing patterns themes styles and techniques employed and the impact upon the target audience and its morale An analysis of the Nazi wireless broadcasts to Britain for the whole of the Second World War reveals a sophisticated and intelligent propaganda assault on the social and economic fabric of British society In the end the British failed to succumb to the stupefying effects of Nazi propaganda and they traditionally congratulate themselves upon the national unity which immunised them against it The author argues that this traditional view disguises a more complex less appealing reality

Guide to Standard Floras of the World David G. Frodin, 2001-06-14 This 2001 book provides a selective annotated bibliography of the principal floras and related works of inventory for vascular plants The second edition was completely updated and expanded to take into account the substantial literature of the late twentieth century and features a more fully developed review of the history of floristic documentation The works covered are principally specialist publications such as floras checklists distribution atlases systematic iconographies and enumerations or catalogues although a relatively few more popularly oriented books are also included The Guide is organised in ten geographical divisions with these successively divided into regions and units each of which is prefaced with a historical review of floristic studies In addition to the bibliography the book includes general chapters on botanical bibliography the history of floras and general principles and current trends plus an appendix on bibliographic searching a lexicon of serial abbreviations and author and geographical indexes

Flowering Plants. Eudicots Joachim W. Kadereit, Charles Jeffrey, 2007-07-12 This volume contains a complete systematic treatment of the flowering plant order Asterales This comprises 12 families with approx 1 720 genera and about 26 300 species Identification keys are provided for all genera and likely phylogenetic relationships are discussed extensively The wealth of information contained in this volume makes it an indispensable source for all working in the fields of pure and applied plant sciences

Regeneration of Plants in Arid Ecosystems Resulting from Patch Disturbance Yitzchak Gutterman, 2013-03-14 The main subject of this book is the interaction between diggings created by porcupines when consuming geophytes and their influences on annual and perennial vegetation in a desert biome The accumulation of run off water in diggings and depressions made by animals increases the carrying capacity of these microhabitats in the desert biome The accumulation of run off water does not only benefit the natural vegetation a system of human made depressions can be evolved to increase the catchment of the run off water that is typical to many desert habitats and can lead to run off agriculture in such areas This book will be of interest to anyone working in the fields of development of deserts from the ecological point of view water resources soil protection and erosion
