**Plantations of the Low Country** William P. Baldwin, Agnes Leland Baldwin, 1985 Architecture has been defined as the gift of one generation to the next In the South Carolina Low Country the gift is a particularly precious one a rich treasure of buildings that not only charm us with their graceful beauty but offer us a glimpse into a vanished world of prosperous plantations and provincial aristocracy **Low Country Gullah Culture, Special Resource Study**, 2003 *Plantations of the Low Country* William P. Baldwin, 1987 Architecture has been defined as the gift of one generation to the next In the South Carolina Low Country the gift is a particularly precious one a rich treasure of buildings that not only charm us with their graceful beauty but offer us a glimpse into a vanished world of prosperous plantations and provincial aristocracy **The Idea of the Cottage in English Architecture, 1760 - 1860** Daniel Maudlin, 2015-07-24 The Idea of the Cottage in English Architecture is a history of the late Georgian phenomenon of the architect designed cottage and the architectural discourse that articulated it It is a study of small buildings built on country estates and not so small buildings built in picturesque rural settings resort towns and suburban developments At the heart of the English idea of the cottage is the Classical notion of retreat from the city to the countryside This idea was adopted and adapted by the Augustan infused culture of eighteenth century England where it gained popularity with writers artists architects and their wealthy patrons who from the later eighteenth century commissioned retreats gate lodges estate workers housing and seaside villas designed to appear as cottages The enthusiasm for cottages within polite society did not last By the mid nineteenth century cottage related building and book publishing had slowed and the idea of the cottage itself was eventually lost beneath the Tudor barge boards and decorative chimneystacks of the Historic Revival And yet while both designer and consumer have changed over time the idea of the cottage as the ideal rural retreat continues to resonate through English architecture and English culture **Colonial South Carolina** Robert M. Weir, 2023-02-24 A standard source on one of the most enigmatic colonies in North America In this modern and complete history Robert Weir explicates the apparent paradoxes that defined colonial South Carolina In doing so he offers provocative observations about its ascension to the pinnacle of mid eighteenth century prosperity escalating racial tension struggles for political control and push toward revolution *Northern Money, Southern Land* Chlotilde R. Martin, 2020-03-18 An enchanting mix of gossip and history from the era when parts of the Old South met their new owners In the early 1930s Chlotilde R Martin of Beaufort South Carolina wrote a series of articles for the Charleston News and Courier documenting the social and economic transformation of the lowcountry coast as an influx of wealthy northerners began buying scores of old local plantations Her articles combined the name dropping chatter of the lowcountry social register with reflections on the tension between past and present in the old rice and cotton kingdoms of South Carolina Edited by Robert B Cuthbert and Stephen G Hoffius *Northern Money Southern Land* collects Martin s articles and augments them with photographs and historical annotations to carry their stories forward to the present day As Martin recounted the

new owners of these coastal properties ranked among the most successful businessmen in the country and included members of the Doubleday Du Pont Hutton Kress Whitney Guggenheim and Vanderbilt families Among the later owners are media magnate Ted Turner and boxer Joe Frazier The plantation houses they bought and the homes they built are some of the most important architectural structures in the Palmetto State although many are rarely seen by the public In some fifty articles drawn from interviews with property owners and visits to their newly acquired lands Martin described almost eighty estates covering some three hundred thousand acres of Beaufort Jasper Hampton Colleton and Berkeley counties Martin s lively sketches included stories of wealthy young playboys who brought Broadway showgirls down for decadent parties tales of the first nudist colony in America and exchanges with African American farmhands who wanted to travel to New York to see their employers primary homes which they had been assured were piled high with gold and silver In the process Martin painted a fascinating landscape of a southern coastline changing hands and on the verge of dramatic redevelopment Her tales here updated by Cuthbert and Hoffius will bring modern readers onto many little known plantations in the southern part of South Carolina and provide a wealth of knowledge about the history of vexing tensions between development and conservation that remain a defining aspect of lowcountry life *The Oligarchs in Colonial and Revolutionary Charleston* Kinloch Bull,1991

William Bull II 1710 1791 a son of William Bull was born in South Carolina His father was commissioned lieutenant governor of the colony in 1738 and William II held that office from 1759 He married Mary Hannah Beale the daughter of Othniel Beale in 1746 No children are mentioned but nephews named Bull appear to be the ancestors of the Bull family now living in South Carolina **Southern Splendor** Marc R. Matrana,Robin S. Lattimore,Michael W. Kitchens,2018-03-22 Few things evoke thoughts and memories of the past more than a house from a bygone era and few places are identified and symbolized more by historic dwellings than the American South Plantation houses built with columned porticos and wide porches stout chimneys large rooms and sweeping staircases survive as legacies of both a storied and troubled past These homes are at the heart of a complex web of human relationships that have shaped the social and cultural heritage of the region for generations Despite their commanding appearance the region s plantation houses have proven to be fragile relics of history vulnerable to decay neglect and loss Today only a small percentage of the South s antebellum treasures survive In *Southern Splendor Saving Architectural Treasures of the Old South* historians Marc R Matrana Robin S Lattimore and Michael W Kitchens explore almost fifty houses built before the Civil War that have been authentically restored or preserved Methodically examined are restoration efforts that preserve not only homes and other structures but also the stories of those living in or occupying those homes The authors discuss the challenges facing specific plantation homes and their preservation Featuring over 275 stunning photographs as well as dozens of firsthand accounts and interviews with those involved in the preservation of these historic properties *Southern Splendor* describes the leading role the South has played since the nineteenth century in the historic preservation movement in this country **South Carolina Historical Magazine** ,1986 [The History and](#)
