**Platonic Architectonics** John Shannon Hendrix, 2004 Platonic Architectonics Platonic Philosophies the Visual Arts examines philosophical structures of Plato in their structural spatial and architectonic implications It examines elements of Plato's philosophical systems in relation to other philosophical systems including those of Anaximander Plotinus Proclus Nicolas Cusanus Marsilio Ficino Georges Bataille Jacques Lacan and Jacques Derrida It also examines Plato's philosophy in relation to architectonic conceptions in the arts including the work of Leon Battista Alberti and Piero della Francesca in the Renaissance Paul Cezanne and the Cubists and Deconstructivists in the twentieth century Platonic Architectonics presents new interpretations of philosophical texts artistic treatises and works of art and architecture in Western culture as they are interrelated and related to Platonic and Neoplatonic philosophical structures It demonstrates the importance of philosophy in the production of the visual arts throughout history and the importance of the relation between the work of art and the philosophical text and artistic treatise

**The Legacy of Plato's Timaeus** Jacomien Prins, Edmund Thomas, 2025-01-20 Plato's Timaeus inspired a uniquely enduring interest across disciplines In the centuries between its composition and the seventeenth century scholars looked to this dialogue for answers to questions about the structure of the universe and how to live a healthy and happy life They saw cosmology as vital to medicine and ethics and for them harmony in music and architecture facilitated balance in the human soul This interdisciplinary collection explores how the dialogue transformed the disciplines of cosmology music medicine and architecture and how new intellectual and cultural developments in turn shaped and re contextualized interpretations of Plato's ideas

Physiologien der Bilder Maurice Saß, 2016-09-26 Ma geblich f r die Ausbildung des neuzeitlichen Begriffs von Kunst war es dass diese als wesensm ig nat rlich verstanden werden konnte Im Grunde genommen ist das Wesen artifizierter Dinge g nzlich nat rlich schrieb so Francesco di Giorgio Martini und unterstrich damit dass die Physiologien der Bilder nicht als Bagatellen abzutun seien Dieser Pr misse geht die vorliegende Publikation nach und zeigt erstmals die grunds tzliche Bedeutung der sogenannten okkulten Wissenschaften bei der Ausbildung des neuzeitlichen Kunstbegriffs auf Denn diese hielten f r so unterschiedliche Fragen wie nach der Rolle des K nstlers den materiellen Prozessen der Produktion oder dem medialen Status des Bildes und seiner Wirkmacht Erkl rungsm glichkeiten bereit

**Architecture and the Unconscious** John Shannon Hendrix, Lorens Eyan Holm, 2016-06-17 There are a number of recent texts that draw on psychoanalytic theory as an interpretative approach for understanding architecture or that use the formal and social logics of architecture for understanding the psyche But there remains work to be done in bringing what largely amounts to a series of independent

voices into a discourse that is greater than the sum of its parts in the way that say the architect Peter Eisenman was able to do with the architecture of deconstruction or that the historian Manfredo Tafuri was able to do with the Marxist critique of architecture The discourse of the present volume focuses specifically for the first time on the subject of the unconscious in relation to the design perception and understanding of architecture It brings together an international group of contributors who provide informed and varied points of view on the role of the unconscious in architectural design and theory and in doing so expand architectural theory to unexplored areas enriching architecture in relation to the humanities The book explores how architecture engages dreams desires imagination memory and emotions how architecture can appeal to a broader scope of human experience and identity Beginning by examining the historical development of the engagement of the unconscious in architectural discourse and the current and historical theoretical and practical intersections of architecture and psychoanalysis the volume also analyses the city and the urban condition Die Perspektive der Antike Berthold Hub,2008 Originally presented as the author s thesis doctoral Universiteat Wien 2006 under the title Von der Perspektive in der Antike zur Perspektive der Antike American Book Publishing Record ,2003 **Journal of the Warburg and Courtauld Institutes** Warburg Institute,2018 **Neoplatonic Aesthetics** Liana Cheney,John Shannon Hendrix,2004 Neoplatonic Aesthetics Music Literature and the Visual Arts explores the idea of a Neoplatonic aesthetic a philosophy of the arts based on the writings of Plato and the Neoplatonists principally Plotinus Proclus Pseudo Dionysius Nicolas Cusanus and Marsilio Ficino and more contemporary philosophers Stephen MacKenna Iris Murdoch Denman Ross Jacques Derrida and Hans Georg Gadamer This book examines the artistic production of figures such as Gioseffe Zarlino Fra Angelico Leon Battista Alberti Sandro Botticelli Michelangelo and Giorgio Vasari and it formulates theoretical approaches to contemporary production based in the Neoplatonic philosophies **Encyclopedia of Philosophy** Donald M. Borchert,2006 This volume covering entries from Determinables and determinates to Fuzzy logic presents articles on Eastern and Western philosophies medical and scientific ethics the Holocaust terrorism censorship biographical entries and much more Center ,2012 **The Philosopher's Index** Richard H. Lineback,1978 *Ruch filozoficzny* ,2005 International Journal of Ethics ,1903 Includes section Book reviews Deconstruction and the Visual Arts Peter Brunette,1994 Representing some of the most innovative thinking in the various arts disciplines these contributions offer important challenges to existing disciplinary orthodoxies **The Platonic Doctrine of Inspiration and the Nature and Function of Poetry in Renaissance Literary Criticism** Clarence Arthur Brown,1941 *Accademia* ,2003 *The Philosopher's Index: Subject index* ,1980 Includes original philosophy books published outside of the United States in English between 1940 and 1978 and articles published in philosophy journals between 1940 and 1966 **Reality in the Mirror of Art** Lise Bek,2003 To speak about the relationship between reality and art is like wanting to solve an equation with two unknowns Nonetheless they are so closely bound up with each other that one is almost bound to mention the two quantities in the same breath Is there much

of a difference then between art and reality For what is reality but what we make of it With our cities and buildings our tamed landscape and manifold utensils with all the available remedies and media we shape reality at will in our own image This however is not true only of our concrete products We form our reality also through the thoughts and ideas we have about ourselves and the world and through the concepts by which we try to cope with it Consequently all art must have its origin in a belief in the existence of reality whatever constitutes the kind of reality that the individual professes to see as his own It is not therefore the intention in this volume to explore the universal laws of art and track down the imprint they have left on reality in the work of art On the contrary art will be seen as the means of expression which due to its diversity and changeability will always be the proper medium to capture the glimpse of the reality current at any given moment and preserve the picture of it in a more lasting though not in a universally valid form      "The" Athenaeum ,1898
