M. Cope, 2015-07-02 Excerpt from Plato's Phaedo Literally Translated As this translation of the Phaedo has not had the benefit of its author's last corrections it is proper that I should state the main rules which I have endeavoured to follow in preparing it for the press It would appear that Mr Cope had subjected his version which was I presume originally intended for use in the lecture room to more than one careful revision and had decided in all cases of doubt which interpretation he preferred In such cases I have regarded his decision as final On the other hand he had not made his choice between the various alternative renderings which he had from time to time recorded In the work of selection which has consequently rested with me my rule has been to prefer the latest rendering but I have considered all the renderings suggested in the manuscript and have now and then taken one of the earlier ones About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
