web fiber optic communication optical fiber communication is being used to transmit voice video and data over long distance as well as within a local network from encyclopedia of physical science and technology third edition 2003 related terms microelectronics multiplexing division multiplexing information industry view all topics

[fiber optic communication an overview sciencedirect topics](#) - Mar 10 2023

web fiber optic communication is mainly conducted in the wavelength region where optical fibers have small transmission losses this low loss wavelength region ranges from 1260 to 1625 nm and is divided into five wavelength bands referred to as the o e s c and l bands current networks are designed for the 1 55 µm window c band
