Culture and Customs of Morocco Raphael Chijioke Njoku, 2005-12-30 Moroccan culture today is a blend of Berber African Arab Jewish and European influences in an Islamic state Morocco s strategic position at the tip of North Africa just below Spain has brought these cultures together through the centuries The parallels with African and Middle Eastern countries and other Muslim cultures are drawn as the major topics are discussed yet the uniqueness of Moroccan traditions particularly those of the indigenous Berbers stand out The narrative emphasizes the evolving nature of the storied subcultures With more exposure to Western style education and pop culture the younger generations are gradually turning away from the strict religious observances of their elders General readers finally have a substantive resource for information on a country most known in the United States for the Humphrey Bogart classic Casablanca images of the souks markets hashish and Berber rugs The strong introduction surveys the people land government economy educational system and history Most weight is given to modern history with French colonial rule ending in 1956 and a succession of monarchs since then The discussion of religion and worldview illuminates the Islamic base and Jewish communities but is also notable for the discussion of Berber beliefs in spirits In the Literature and Media chapter the oral culture of the Berbers and the new preference for Western style education and use of French and even English are highlights The Moroccans are renowned as skilled artisans and their products are enumerated in the Art and Architecture Housing chapter along with the intriguing descriptions of casbahs and old guarters in the major cities Moroccans are hospitable and family oriented which is reflected in descriptions of their cuisine and social customs Moroccan women seem to be somewhat freer than others in Muslim countries but the chapter on Gender Roles Marriage and Family shows that much progress is still needed Ceremonies and celebrations are important cultural markers that bring communities together and a wealth of religious national and family rites of passage with accompanying music and dance round out the cultural coverage The Rose and the Thorn Roger Joseph, Terri Brint Joseph, 1987 Cultural Anthropology of the Middle East ,1992 During the last two decades the number of anthropological studies on the Middle East has increased exponentially This partially annotated bibliography offers a comprehensive survey of studies written in English French and German and covers the period from 1965 to 1987

Park, 2016-06-02 A historical reference work on Morocco must take as its subject al maghrib al agsa the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean litoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology have so conspired that there is still more coherence to an historical focus on all maghrib all ages at than is the case for most modern nation states This third edition of Historical Dictionary of Morocco contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and Semiotica, 1997 anyone wanting to know more about Morocco Readings in Ritual Studies Ronald L.
