Rosicrucian Digest 1940:

Rosicrucian Digest, 1940 Rosicrucian Editors, 2013-10 This is a new release of the original 1940 edition *The Changing Terrain of Religious Freedom* Heather J. Sharkey, Jeffrey Edward Green, 2021-09-24 The Changing Terrain of Religious Freedom offers theoretical historical and legal perspectives on religious freedom while examining its meaning as an experience value and right The volume starts from the premise that the terrain of religious freedom has never been easy and smooth Across societies and throughout history defending or contesting principles of religious freedom has required compromise among multiple interests balancing values and wrangling with the law Drawing on examples from the United States and around the world and approaching the subject from the disciplines of history law sociology philosophy religious studies and political science the essays in this volume illustrate these challenges They sketch the contours of contemporary debates while showing how the landscape of religious freedom has shifted over time They consider various stakeholders that have asserted competing claims among them individuals and groups members of minority and majority communities states and corporations including both religious organizations and businesses and believers and non believers Taken together the studies in this volume suggest that understanding religious freedom means grappling with conflicting and perhaps irreconcilable claims about whose rights should prevail over others what religion is or may be and how religion should relate to other cultural values The Religion of Chiropractic Holly Folk, 2017-03-13 Chiropractic is by far the most common form of alternative medicine in the United States today but its fascinating origins stretch back to the battles between science and religion in the nineteenth century At the center of the story are chiropractic s colorful founders D D Palmer and his son B J Palmer of Davenport Iowa where in 1897 they established the Palmer College of Chiropractic Holly Folk shows how the Palmers system depicted chiropractic as a conduit for both material and spiritualized versions of a vital principle reflecting popular contemporary therapies and nineteenth century metaphysical beliefs including the idea that the spine was home to occult forces The creation of chiropractic and other Progressive era versions of alternative medicine happened at a time when the relationship between science and religion took on an urgent increasingly competitive tinge Many remarkable people including the Palmers undertook highly personal reinterpretations of their physical and spiritual worlds In this context Folk reframes alternative medicine and spirituality as a type of populist intellectual culture in which ideologies about the body comprise a highly appealing form of cultural resistance Lemuria Justin McHenry, 2024-01-09 Is Lemuria a real place or the fever dream of crackpots mystics conspiracy theorists and Bigfoot hunters Below the waters where the Pacific and Indian Oceans lies a lost continent One of hopes and dreams that housed a race of beings that arrived from foreign planets and from which sprang humanity religion civilization and our modern world It was called Lemuria and it was all fake What began as a theoretical land bridge to explain the mystery of lemurs on Madagascar quickly got hijacked to become the evolutionary home of humankind the cradle of spirituality and then the source of cosmological wonders Abandoned by

science as hokum Lemuria morphed into a land filled with ancient advanced civilizations hollowed out mountains full of gold and crystals moon beings descending in baskets underground evil creatures and a breast feeding Bigfoot The history of Lemuria is populated with a dizzying array of people from early Darwinists to conspiracy spouting Congressmen globetrotting madams Rosicrucians Hollow Earthers sci fi writers UFO contactees sleeping prophets New Age channelers a Mother God and a tequila swigging conspiracy theorist Historian Justin McHenry provides a thoughtful exploration of how pseudo science hijacked the gentle Victorian era concept of Lemuria and in following decades twisted it into an all encompassing home for alternative ideas about race spirituality science politics and the paranormal
