**Roughing it in the Bush Or Life in Canada** Susanna Moodie, 1988 Probably Canada's best known settlement story this autobiographical account of frontier conditions in the 1830s is a compelling narrative that emphasizes both the tragedies and the triumphs of a sensible and sensitive woman and her family as they come to terms with their new environment

Roughing it in the Bush, Or, Life in Canada Susanna Moodie, 1852      *Roughing it* Mark Twain, 1892      Mark Twain  
Stuart Hutchinson, 1994 This book explores Twain's major writings as they address the New World and the Old race slavery imperialism the possibility of American literary form and the limits of humour Twain's humour is an expression of the pleasure and fun of life but it is also a response to ultimate contradictions and losses It is particularly American in that it rarely points to harmonies that might actually be enjoyed beyond itself It is the humour of someone always on the move if not on the run The absence of any destination in Twain other than the ultimate one of death is why his work is so formally unsettled There is no point of clarification where author narrator and readers can be expected to arrive together Texts treated in this book include *The Innocents Abroad* *Roughing It* *Tom Sawyer* *Huckleberry Finn* *Life on the Mississippi* *The Gilded Age* *A Connecticut Yankee* *Pudd'nhead Wilson* *Following the Equator* *The Mysterious Stranger* and several short pieces

**Between Empire and Republic** Oana Godeanu-Kenworthy, 2022-01-26 In 1837 a small group of rebels proclaimed the short lived Republic of Canada Between then and the Act of Confederation of 1867 colonial Canadians tried to imagine the future of their communities in North America The choice between monarchy and republicanism shaped both colonial self images and images of the United States it also drove the political deliberations that eventually united the colonies of British North America into a self governing Dominion under the British Crown *Between Empire and Republic* is a thematic exploration of the political discourse embedded in the literary output of the period Colonial authors Susanna Moodie Th Ch Haliburton and John Richardson enjoyed transatlantic popularity and explained colonial realities to their British Canadian and American readership Collectively their writings serve as the lens into colonial Canadian perceptions of American and British political ideas and institutions *Between Empire and Republic* discusses North America as a literary contact zone where British principles of constitutional monarchy competed with American ideas of republicanism and democratic self government The author argues that political ideas in pre Confederation Canada filtered into the literary works of the time creating two settler colonial communities whose recognizable cultural characteristics echoed public attitudes towards the political projects underpinning them
