Policies And Practice A Focus On Higher Education Retention:

Policies and Practice American Association of State Colleges and Universities, 1997 This book based on a discussion at an interactive videoconference examines student diversity issues and retention strategies in the context of the Sallie Mae National Retention Project that addressed state expectations for more accountability and federal reporting requirements on graduation and retention The eight chapters focus on equity as it applies to fostering the values of diversity and inclusion as well as on ensuring educational achievement and success Individual chapters are 1 AASCU Sallie Mae National Retention Project Kenneth E Redd and Joyce A Scott 2 Toward More Systemic Retention Strategies Richard C Richardson Jr and Mary Aleta White 3 Looking at Maryland Higher Education Teaching and Learning Practices and Student Retention Pamela G Arrington 4 From Shifting Sands to Bedrock Equity as Excellence via Pedagogical Pluralism Joel M Jones 5 Improving Student Retention The Role of the University President Ruben Arminana Drew Calandrella and Donald Farish 6 A Comprehensive Approach to Enhancing Student Retention and Graduation Vera King Farris 7 Academic Advising Key to Student Retention Robert E Glennen and 8 Retention Strategies for Campus Success Rosario Martinez Individual chapters contain references and a comprehensive bibliography concludes the book DB **Resources in Education** ,1990

Rethinking College Student Retention John M. Braxton, William R. Doyle, Harold V. Hartley, III, Amy S. Hirschy, Willis A. Jones, Michael K. McLendon, 2013-10-21 Drawing on studies funded by the Lumina Foundation the nation's largest private foundation focused solely on increasing Americans success in higher education the authors revise current theories of college student departure including Tinto's making the important distinction between residential and commuter colleges and universities and thereby taking into account the role of the external environment and the characteristics of social communities in student departure and retention A unique feature of the authors approach is that they also consider the role that the various characteristics of different states play in degree completion and first year persistence First year college student retention and degree completion is a multi layered multi dimensional problem and the book's recommendations for state and institutional level policy and practice will help policy makers and planners at all levels as well as anyone concerned with institutional retention rates and helping students reach their maximum potential for success understand the complexities of the issue and develop policies and initiatives to increase student persistence **Enlisted Management Policies and Practices** Sheila Nataraj Kirby, Scott Naftel, 2001 This report examines management policies and practises in the military and their effectiveness in an attempt to understand how best to manage the enlisted force in the future

Student Engagement in Neoliberal Times Nick Zepke, 2016-12-14 This book investigates origins meanings uses and effects of student engagement in higher education and addresses three core questions 1 Why is student engagement so visible in higher education today 2 What are its dominant characteristics 3 What is missing in the popular view of student engagement These questions pave the way for a fresh approach to student engagement The book argues that an elective

affinity between student engagement and policies embedded in neoliberalism the dominant ideology of the early 21st century enables student engagement to transcend diverse intellectual and practice contexts This affinity encourages quality learning and teaching that enables student to succeed in their studies and future careers The book shows that focusing on neoliberal objectives for learning and teaching limits the potential of student engagement in higher education This conclusion leads to a critical and practical social ecological perspective that approaches engagement more as a pathway to social justice than as a list of techniques This book is a work of critical scholarship backed by empirical research It questions accepted theories and practices and offers fresh insights into student engagement in higher education including how engagement could promote social justice

Miller,2007-07-26 This book explores the dynamic field of Higher Education preparing administrators faculty and policymakers It covers marketing student affairs community colleges online programs and core curricula mapping the current landscape and future directions for Higher Education programs

Beyond Mass Higher Education Ian McNay,2006 This volume looks forward to the next decade of higher education and identifies strategic issues that need to be tackled at institutional and management levels The book considers how far the higher education system has adapted to respond to the requirements of a mass and universal system Improving College Student Retention Robert D. Reason,John M. Braxton,2023-07-03 Higher education institutions have already begun to see decreasing enrollment numbers even as higher education enrollment is predicted to drop precipitously starting in 2025 Much of the decrease in enrollment will be driven by demographic trends about which higher education institutions can do little making the retention of students who do enroll that much more important Overall retention rates have stagnated and differential retention rates by race and ethnicity have persisted If higher education institutions researchers and policy makers are to improve retention rates a critical examination of the current state and future directions of retention research is essential This edited volume begins that examination by addressing several questions What are the needed directions in theory and research on college student persistence and how do we translate new theory and research into effective practices Are we asking the right questions looking in the right places or trying to apply out of date theories to new populations In short how can the research community help institutions improve retention in this challenging time **The Policies,**
