Effective contemporary crowd control methods used by American, Canadian, and British agencies support these techniques. Police procedures strongly influence law enforcement training, thus, affecting officers' responses.

Policing Public Order Theoretical And Practical Issues:

Kontrollierte Urbanität Volker Eick, Jens Sambale, Eric Töpfer, 2015-07-15 Seit rund zwanzig Jahren sind Städte zu Laboren neoliberaler Kriminalpolitik avanciert. Das gilt insbesondere für die Metropolen Nordamerikas und Westeuropas, in denen neue staatliche Polizeistراتيجien erprobt, private Sicherheitsdienste beauftragt und elaborierte Kontroll- und Sicherheitstechnologien zum Einsatz gebracht werden. Erstmals fassen hier ausgewiesene Experten theoretische und empirische Ergebnisse zur sicherheitspolitischen Kontrolle des innerstädtischen Raums von Sportveranstaltungen, neuen sozialen Bewegungen und sogenannten Randgruppen in vergleichender Perspektive zusammen.

Internationales Handbuch der Gewaltforschung Wilhelm Heitmeyer, John Hagan, 2013-07-01 Die Forschung zur Gewalt in modernen westlichen Gesellschaften hat in den letzten Jahren zugenommen. Die Erklärungen dafür sind zahlreich: tatsächlicher Anstieg bei bestimmten Gewaltvarianten, neue Sensibilitäten, Rückkehr alter Gewaltformen, Verlagerung von Gewalt in andere gesellschaftliche Bereiche etc. Bisher fehlt jedoch ein systematischer Überblick über die tatsächlichen Entwicklungen. Das vorliegende Handbuch informiert umfassend über Gewalt als soziales Phänomen. Dabei wird fast allen Facetten dieses Themas Rechnung getragen: Sozialstrukturelle Verhältnisse und Gewalt, Sozialisation und Lernen von Gewalt, Gewalterfahrungen und Gewalttätigkeit, Gewaltopfer, Gewalt in gesellschaftlichen Institutionen, Gewalt durch politische Gruppen, Gewaltdiskurse etc. In 62 Artikeln von Autorinnen und Autoren aus zehn Ländern liefert der Band ein komplexes transdisziplinäres Bild eines Forschungsfeldes zwischen Ordnung, Zerstörung und Macht.

Police Response to Riots Garth den Heyer, 2019-11-13 This book is a study of the response that the police take to modern urban riots. It takes a principally police perspective on the lead up to a riot, the police response and the evaluation of the police response. The book is based on the development and analysis of four extensive case study riots: France 2005, London 2011, Ferguson 2014 and Baltimore 2015. The methodological approach to the case studies is comparative and includes an interactive framework that incorporates a number of key variables. These variables examine how each riot began, how they developed, the response strategies and tactics used by the police, and how the riots eventually ended. The first section looks at defining riots and examines the riot literature and research to date. The second section analyses the current police response to rioting. The third and final section includes an analysis and comparison of the case study riots along with an examination of how the police response to riots could be improved. With its focus on police practices, this unique volume will be useful for researchers, students, police, law enforcement and policy makers.

The Disruption of International Organised Crime Dr Angela Veng Mei Leong, 2013-02-28 Analyzing the structures of transnational organized crime, this book considers whether traditional mechanisms and national jurisdictions can tackle this increasing menace. Highlighting the strengths and weaknesses in the present methods of control, the book discusses the possibilities of developing more effective national and international strategies, the creation of non-legal mechanisms outside the traditional criminal justice system, and the implications of disruption strategies. The roles of law

UK during this period The social and political context has also changed dramatically not least with the election of a Labour government after 18 years of Conservative rule All these factors have led to a profound shift in the nature of policing The author has retained the book's three fold structure covering the history of the police the sociology of policing and the law and politics of the police There is also an examination of the complex and highly charged debates surrounding policing including the various controversies and developments which have led to a change in the public's opinion of the police in recent years from the violent conflict of the miners strike in 1984-85 to the Macpherson report on the Stephen Lawrence case in 1999 In addition current proposals for reform are analysed and others proposed This clear insightful and up to date review of a complex and contentious subject will be essential reading for all those concerned with policing whether students researchers or professionals
