Policy Making In The European Community Ed:

European Union Policy-Making Nicole Herweg, 2017-02-23 This book furthers the ongoing theoretical development of the multiple streams framework assessing its applicability to European Union EU policy making processes It systematically defines and identifies functional equivalents for all of the framework's core concepts at the EU level and extends the framework in order to explain agenda setting and decision making Furthermore the book derives a set of explicit hypotheses to empirically assess the extent to which the modified framework is able to explain timing agenda prominence and policy change or a lack thereof for the EU natural gas directives passed in 1998 2003 and 2009 The analysis documents that the framework is well suited to explain the EU policy process in general and reveals where additional theoretical refinements are required

The Domestic Structure of European Community Policy-Making in West Germany (Routledge Revivals) Simon Bulmer, 2015-06-11 The Federal Republic of Germany's position in the European Community had been described as one of interdependence penetration and integration Of the three terms this research addresses itself most directly to penetration to the links between the German political system and policy making at the Community level These links operated in two directions Thus membership for the European Community EC imposed certain constraints on German domestic policy making Although this research first published in 1986 concentrates on the structural inter relationship between the German political system and EC decisions its main focus of attention is the articulation of German interests in the EC policy process This book will be of interest to students of politics and history

Institutionenwandel Gerhard Göhler, 2013-03-13 1 Institutionenwandel ist uns seit dem Umbruch in Mittel Ost und Südosteuropa ein vertrautes Phänomen geworden das wir mit Anteilnahme Hoffnung und Sorge verfolgen In der Wissenschaft ist der große Zweig der Transformationsforschung entstanden der den Bergang der ehemals sozialistischen Gesellschaften in eine Zukunft mehr oder weniger westlichen Musters in all seinen Problemen aufarbeitet Nicht zuletzt das Sonderheft 1995 des Leviathan hat diese Forschungen dokumentiert Das vorliegende Heft soll diese Arbeiten nicht duplizieren Es scheint vielmehr an der Zeit sich klarzumachen oder besser sich wieder daran zu erinnern da Institutionenwandel ein umfassendes Phänomen ist welches uns historisch stets begleitet und auch in der Gegenwart überall in der Welt anzutreffen ist Die Erweiterung des Blicks über die Transformationsforschung hinaus soll vor Augen führen da der in vielfältigen Formen auftretende Institutionenwandel einer der wichtigsten Faktoren ist um Gesellschaft und Politik in ihrer Dynamik zu begreifen Institutionenwandel haben wir in den Umbruch in Mittel Ost und Südosteuropa aber ebenso im Zuge der europäischen Integration in den Veränderungen der Dritten Welt und in der Entwicklung der internationalen Regime und Organisationen Der Wandel ist nicht immer so sichtbar wie in der Folge des Niedergangs real existierender sozialistischer Systeme Institutionenwandel kann sich abrupt vollziehen er kann aber auch eher unmerklich vonstatten gehen und doch erhebliche Auswirkungen haben So im Zuge der europäischen Integration Da neue Institutionen geschaffen und somit Institutionenwandel in Europa beabsichtigt und erreicht wurde ist

nur die eine Seite **Toward a Common European Union Energy Policy** V. Birchfield, J. Duffield, 2011-07-18 Since the mid 2000s the European Union has made unprecedented strides toward the creation of a common energy policy This book takes stock of these developments evaluating how much progress has actually been made and what remains to be done what factors explain these recent advances and their limitations *Functional and Territorial Interest Representation in the EU* Michèle Knodt, Christine Quittkat, Justin Greenwood, 2014-07-16 Despite a substantial legacy of literature on EU interest representation there is no systematic analysis available on whether a European model of interest representation in EU governance is detectable across functional and territorial categories of actors Functional actors include associations for business interests the professions and trade unions as well as NGOs and social movements territorial based entities include public actors such as regional and local government as well as actors primarily organised at territorial level What are the similarities and differences between territorial and functional based entities and are the similarities greater than the differences Are the differences sufficient to justify the use of different analytical tools Are the differences within these categories more significant than those across them Is there a professionalised European lobbying class across all actor types Does national embeddedness make a difference Which factors explain the success of actors to participate in European governance This book was originally published as special issue of Journal of European Integration **Climate Change Policy in the European Union** Andrew Jordan, Dave Huitema, Harro van Asselt, Tim Rayner, Frans Berkhout, 2010-04-29 The European Union EU has emerged as a leading governing body in the international struggle to govern climate change The transformation that has occurred in its policies and institutions has profoundly affected climate change politics at the international level and within its 27 Member States But how has this been achieved when the EU comprises so many levels of governance when political leadership in Europe is so dispersed and the policy choices are especially difficult Drawing on a variety of detailed case studies spanning the interlinked challenges of mitigation and adaptation this volume offers an unrivalled account of how different actors wrestled with the complex governance dilemmas associated with climate policy making Opening up the EU's inner workings to non specialists it provides a perspective on the way that the EU governs as well as exploring its ability to maintain a leading position in international climate change politics **Decision-making in the European Community** Emil Joseph Kirchner, 1992 In this first major assessment of EC decision making at the highest levels for ten years Emil Kirchner examines the Council Presidency's role in European integration The author demonstrates how the EC Council Presidency plays a crucial role in the integration process enhanced by the Single European Act and the two Intergovernmental Conferences on EMU and Political Union He evaluates the balance and distribution of power between national and Community actors and asks whether the Council Presidency is primarily an instrument to maintain national control of EC decision making rather than a device for promoting integration He sheds light on the negotiations which led to the SEA and the two Intergovernmental Conferences and argues for a new interpretation of the relationship between the EC

and its constituent states EC decision making is not characterised by a transfer of powers from the national to the EC level but by a sharing of competences between national and Community institutions and a pooling of sovereignties among member governments that is analogous to co operative federalism Decision making in the European Community will be vital reading for political scientists and students interested in the EC and for all those seeking to understand European integration potentially the 1990s most important political development

Creating European Citizens Willem Maas,2007-02-03 Exploring a key aspect of European integration this clear and thoughtful book considers the remarkable experiment with common rights and citizenship in the EU Governments around the world traditionally distinguish insiders citizens from outsiders foreigners Yet over the past half century an extensive set of supranational rights has been created in Europe that removes member governments authority to privilege their own citizens a hallmark of sovereignty The culmination of supranational rights European citizenship not only provides individuals with choices about where to live and work but also forces governments to respect those choices Explaining this innovation why states cede their sovereignty and eradicate or redefine the boundaries of the political community by including foreigners Willem Maas analyzes the development of European citizenship within the larger context of the evolution of rights Imagining more than simply a free trade market the goal of building a broader and deeper community among peoples with a destiny henceforward shared creating European citizens has informed European integration since its origins The author argues that its success or failure will not only determine the future of Europe but will also provide lessons for political integration elsewhere
