Political Protest And Prophecy Under Henry VIII:

Political Protest and Prophecy Under Henry VIII Sharon L. Jansen, 1991-01-01 *The Politics of the Excluded, c. 1500-1850* Tim Harris, 2017-03-14 This collection of essays seeks to shed light on the politics of those people who are normally thought of as being excluded from the political nation in early modern England If by political nation we mean those who sat in parliament the governors of counties and towns and the enfranchised classes in the constituencies then the excluded would be those who were neither actively involved in the process of governing nor had any say in choosing those who would rule over them the bulk of the population at this time Yet this volume shows that these people were not in fact excluded from politics Not only did the masses possess political opinions which they were capable of articulating in a public forum but they were also often active participants in the political process themselves and taken seriously in that capacity by the governmental elite The various essays deal with topics as wide ranging as riots rumours libels seditious words public opinion the structures of local government and the gendered dimensions of popular political participation and cover the period from the eve of the Reformation to the Industrial Revolution They challenge many existing assumptions concerning the nature and significance of public opinion and politics out of doors in the early modern period and show us that the people mattered in politics and thus why we as historians cannot afford to ignore them Politics was more participatory in this undemocratic age than one might have thought The contributors to this volume show that there was a lively and engaged public sphere throughout this period from Tudor times to the Georgian era **Popular Politics and the English**

Reformation Ethan H. Shagan, 2003 This book is a study of popular responses to the English Reformation It takes as its subject not the conversion of English subjects to a new religion but rather their political responses to a Reformation perceived as an act of state and hence like all early modern acts of state negotiated between government and people These responses included not only resistance but also significant levels of accommodation co operation and collaboration as people attempted to co opt state power for their own purposes This study argues then that the English Reformation was not done to people it was done with them in a dynamic process of engagement between government and people As such it answers the twenty year old scholarly dilemma of how the English Reformation could have succeeded despite the inherent conservatism of the English people and it presents a genuinely post revisionist account of one of the central events of English history

Prophecy and Public Affairs in Later Medieval England Lesley Ann Coote, 2000 The nature of political prophecy in the middle ages analysed confirming its importance in the discussion of public affairs In this first general survey of political prophecy in medieval England for almost a hundred years Lesley Coote examines the nature of political prophecy its audience and its reception She compares the discourse of prophecy with other related discourses and demonstrates how it functioned as a political language A study of extant manuscripts produces an account of the importance of political prophecy in later medieval England from its emergence in the twelfth century to the end of the middle ages What emerges from this

study is a political language which was neither peripheral to English political consciousness nor merely a game for intellectuals but a major language for the discussion of public affairs In this language were presented ideas of Englishness and the aspirations of a national community which included the imminent revelation of a great crusading hero ruler a second Arthur who would lead his people into the Last Days The book is completed with a handlist of manuscripts containing political prophecies Dr LESLEY A COOTE is a Research Fellow in the Department of English at the University of Hull

Valuable research tool Handlist of manuscripts containing political prophecies **The Pilgrims' Complaint** Michael Bush,2016-12-05 The Pilgrimage of Grace a popular uprising in the north of England against Henry VIII s religious policies has long been recognised as a crucial point in the fortunes of the English Reformation Historians have long debated the motives of the rebels and what effects they had on government policy In this new study however Michael Bush takes a fresh approach examining the wealth of textual evidence left by the pilgrimage of grace to reconstruct the wider social political and religious attitudes of northern society in the early Tudor period More than simply a reassessment of the events of October 1536 the book examines the mass of surviving evidence the rebels proclamations rumour mongering bills oaths manifestos petitions songs prophetic rhymes eye witness accounts and confessions in order to illuminate and explore the kind of grass roots feelings that are often so hard to pin down He concludes that the evidence points to a much more complex situation than has often been assumed revealing much more than simply a desire for the country to return to the old religion and familiar ways Rather this book demonstrates how the rebels sought to use the language of custom and tradition to bolster their own political and economic positions in a rapidly changing world It reveals a populace at once conservative and radical able to judge innovation and change in relation to its own benefit and ultimately able to advance a coherent programme of reform Whilst this programme was carefully couched in language supportive of the traditional orderly society it nevertheless carried within it more radical proposals which proved extremely challenging to the monarchy government and church who eventually closed ranks to bring the uprising to an end As both an exploration of the causes and aims of the pilgrimage of grace and the wider religious social and political attitudes of northern England this book has much to offer the student of the period **Secretaries of God** Diane Watt,1997 The English women prophets and visionaries whose voices are recovered here all lived between the twelfth and the seventeenth centuries and claimed through the medium of trances and eucharistic piety to speak for God Through prophecy they were often able to intervene in the religious and political discourse of their times the role of God s secretary gave them the opportunity to act and speak autonomously and publicly

Back cover *Prophets Abroad* Rosalynn Voaden,1996 Essays on the influence of continental holy women on their English counterparts Archiv für Kulturgeschichte Georg Steinhausen,Walter Wilhelm Goetz,2008 **Everyday Magicians** Sharon Hubbs Wright, Frank Klaassen,2023-10-31 Most of the women and men who practiced magic in Tudor England were not hanged or burned as witches despite being active members of their communities These everyday magicians responded to

common human problems such as the vagaries of money love property and influence and they were essential to the smooth functioning of English society This illuminating book tells their stories through the legal texts in which they are named and the magic books that record their practices In legal terms their magic fell into the category of sin or petty crime the sort that appeared in the lower courts and most often in church courts Despite their relatively lowly status scripts for the sorts of magic they practiced were recorded in contemporary manuscripts Juxtaposing and contextualizing the legal and magic manuscript records creates an unusually rich field to explore the social aspects of magic practice Expertly constructed for both classroom use and independent study this book presents in modern English the legal documents and magic texts relevant to ordinary forms of magic practiced in Tudor England These are accompanied by scholarly introductions with original perspectives on the subjects Topics covered include the London cunning man Robert Allen magic to identify thieves love magic magic for hunting fishing and gambling and magic for healing and protection *Im Zeichen der Krise* Hartmut Lehmann, Anne-Charlott Trepp, 1999 Mit der Verschlechterung der allgemeinen Lebensverhältnisse veränderte sich um 1570 der Umgang mit Religion in den Konflikten des 17. Jahrhunderts steigerte sich das Interesse an religiösen Fragen noch einmal Dieser Band beleuchtet die verschiedenen Aspekte der Transformation des Christentums im 17. Jahrhundert die Zukunftserwartungen und Zeitzeichen die Erfahrungen mit Hunger Krankheit und Tod die Beziehungen zwischen Juden und Christen die Rolle von Außenseitern und Randexistenzen Entwicklungen in der Wissenschaft und die Entzauberung des Heiligen Die Autorinnen und Autoren gehen der Frage nach wie stark und auf welche Weise das Christentum Europa am Ende des Zeitalters von Reformation und Konfessionalisierung geprägt hat Auf dieser Grundlage ist dann auch zu erkennen wie die Aufklärung das Leben in Europa veränderte Zwei Tendenzen bestimmen die Geschichte des europäischen Christentums im 17. Jahrhundert die Versuche der Obrigkeit in ihren Territorien religiöse Uniformität herzustellen und die Versuche weiter Teile der Bevölkerung das Seelenheil zu erlangen Es zeigt sich da das was obrigkeitlich beabsichtigt war und erlassen wurde von den Untertanen nur unvollkommen teilweise auch gar nicht befolgt wurde **Bibliographie**

Internationale Des Recensions de la Littérature Savante, 1983 *Bibliographie internationale des recensions de la littérature savante*, 1974 **Selling the Tudor Monarchy** Kevin M. Sharpe, 2009 Reveals how from even before the Reformation the Tudors sought to sustain and enhance their authority by representing themselves to their people through the media of building print art material culture and speech **Gender and the Authority of Inspiration** Miriam Beth Garber, 1996 **Impostures in Early Modern England** Tobias B. Hug, 2009 Impostors and impostures featured prominently in the political social and religious life of early modern England Who was likely to be perceived as impostor and why This book offers the first full scale analysis of an important and multifaceted phenomenon Tobias B Hug examines a wide range of sources from judicial archives and other official records to chronicles newspapers ballads pamphlets and autobiographical writings This closely argued and pioneering book will be of interest to specialists students and anyone

concerned with the timeless questions of why and how individuals fashion re fashion and make sense of their selves

Democratic Communications James F. Hamilton, 2008-02-07 While it has always been hard to do establishing a clear difference between mainstream media and alternative media has grown even more difficult within the past twenty years With the emergence of such efforts as open publishing web logging and video logging video posting websites citizen journalism creative commons initiatives and image focused anti corporate activism it has become increasingly difficult to navigate within this emerging media landscape The traditional lines between mainstream and alternative and between producers and consumers have been blurred This growing inability to adequately map this landscape demands that these lines be reconsidered New ways must be formed for probing implications of these new media outlets for democratization and global justice movements This book reconstitutes the cultural and historical roots of this protean media landscape and assesses its relevance to democratic communications Using a comprehensively argued cultural and historical analysis the book rethinks long standing assumptions about alternative media and democratic communications By providing greater understanding of historical resources limitations and possibilities this book makes a key contribution not only to scholarship in this area but also to this pressing social political and cultural issue Commonwealth, Social Order and the Tudor Poor Laws Goo Saing Hur, 1998 *Authority and Consent in Tudor England* Clifford Stephen Lloyd Davies, 2002 Brought together as a tribute to the distinguished Tudor historian C S L Davies the essays in this collection address key themes in the current historiography of the Tudor period These include the nature causes and consequences of change in English government society and religion the relationship of centre localities and peripheral areas in the Tudor state the regulation of belief and conduct and the dynamics of England s relations with her neighbours The contributors colleagues and students of Cliff Davies are all leading scholars who have provided fresh and interesting essays reflecting the wide ranging inquisitiveness characteristic of his own work They seek to cross as he has done the traditional boundaries between the medieval and early modern periods and between social political and religious history A coherent collection in their own right these essays by showing the many new directions open to those studying the Tudor period provide a fitting tribute to such an influential scholar
