Santner, 2007-11-01 In *On the Psychotheology of Everyday Life* Eric Santner puts Sigmund Freud in dialogue with his contemporary Franz Rosenzweig in the service of reimagining ethical and political life By exploring the theological dimensions of Freud's writings and revealing unexpected psychoanalytic implications in the religious philosophy of Rosenzweig's masterwork *The Star of Redemption* Santner makes an original argument for understanding religions of revelation in therapeutic terms and offers a penetrating look at how this understanding suggests fruitful ways of reconceiving political community Santner's crucial innovation in this new study is to bring the theological notion of revelation into a broadly psychoanalytic field where it can be understood as a force that opens the self to everyday life and encourages accountability within the larger world Revelation itself becomes redefined as an openness toward what is singular enigmatic even uncanny about the Other whether neighbor or stranger thereby linking a theory of drives and desire to a critical account of sociality Santner illuminates what it means to be genuinely open to another human being or culture and to share and take responsibility for one's implication in the dilemmas of difference By bringing Freud and Rosenzweig together Santner not only clarifies in new and surprising ways the profound connections between psychoanalysis and the Judeo Christian tradition he makes the resources of both available to contemporary efforts to rethink concepts of community and cross cultural communication **TRUSTING IN THE TRINITY: Compass Psychotheology Applied** Dr. Dan & Kate Montgomery, 2009-01-01 The Trinity one God in three Persons sets apart Christianity from other world religions and philosophies Yet you may wonder who the Trinity really is and the relevance of the Father Son and Holy Spirit to your daily life *Trusting In The Trinity* shows you how to know and feel the Trinity's extravagant love Topics include how the Trinity relates to God's nature and human nature personality and relationships holiness and worship miracles and prayer science and philosophy psychology and creativity Praised by professors at Yale Fuller Gordon Conwell Dubuque Andover Newton and Dallas theological seminaries Theologian Tremper Longman writes Dr Dan and Kate Montgomery integrate their counseling method with a thoroughly biblical Trinitarian theology and the result is insight that can transform our life and our relationships **Psychoanalysis and the Love of Arabic** Nadia Bou Ali, 2020-02-14 Nadia Bou Ali shows how a curious

Your analysis suffers from the hereditary weakness of virtue Freud once wrote to a colleague One has to become a bad fellow to transcend the rules without some such criminality there is no achievement Taking up the challenge this precedent breaking volume transcends the rules of contemporary theology and psychoanalysis bringing new insights new dimensions and new perspectives to the interplay between the two I shall neither accept the rules set by theology and psychology nor simply abrogate them theologian Peter Homans writes in his introduction My procedure is an attempt to press mere dialogue and comparative analysis to the point where something new emerges First criticizing theology's inadequate view of Freud the author moves to a psychological examination of theology based on a more generous interpretation of the Viennese physician's seminal ideas and theories Concerned with the implication of secularization for contemporary Protestant thought Homans next examines the existentialist theory of Niebuhr and Tillich radical theology and the contributions of such cultural critics as Norman O Brown Phillip Rieff and David Bakan And proceeding beyond these on his own the author persuasively argues the necessity for new paradigms of religious and psychological understanding More than a study in the psychology of religion the book is concerned with the psychology of theological constructs especially the doctrine of transcendence It is a challenging provocative and very necessary beginning of an intellectual quest for relevancy one that should become increasingly significant to ministers and analysts laymen and professionals friends and enemies in both camps Above all the author intends the book to provide a stimulus for thought to persons concerned with the fate of theology in an age given over to predominately psychological thinking those who although they cannot but affirm the psychological still sense that genuine meanings still reside in the theological Publisher Jahrbuch für Philosophie und spekulative Theologie ,1891
