Psychological Approaches To Entrepreneurship:

Psychological Approaches to Entrepreneurship Michael Frese, Elizabeth Chell, Heinz Klandt, 2000 The psychological study of entrepreneurship is most interesting because small scale entrepreneurs must work on numerous tasks such as development leadership and organization This text examines predictors of success and entrepreneurial behaviour A Psychological Approach to Entrepreneurship Dean A. Shepherd, 2014-12-31 Within an entrepreneurial context what a person thinks and feels and how they behave are hugely consequential Entrepreneurs often work in scenarios of considerable time pressure task complexity uncertainty and high performance variance This fasci *Entrepreneurship* Álvaro Cuervo, Domingo Ribeiro, Salvador Roig, 2007-05-26 With so many theories and so many scientific bodies implicated in its study Entrepreneurship can at times seem like a veritable jungle where finding one s way can prove to be difficult This book functions as a map locating the most important issues those where an acceptable consensus already exists and those that remain open to discussion In so doing we have presented the accounts of distinguished explorers in their own words The book contains three parts reflecting the synergistic approach opted for by the editors Concepts Theory and Perspective that correspond to previously published academic articles that were either important in the scientific consolidation of Entrepreneurship or that present challenges for the future **The Psychology of Entrepreneurship** J. Robert Baum, Michael Frese, Robert A. Baron, 2014-04-16 Entrepreneurship is essential for international social and economic well being as new ventures are the dominant source of job creation market innovation and economic growth in many societies In this book a noted group of researchers use findings methods and theories of modern psychology as the basis for gaining important new insights into entrepreneurship and into the hearts and minds of the talented passionate professionals who create new business ventures The Psychology of Entrepreneurship a volume in the SIOP Organizational Frontiers Series is the first book written about the psychology of entrepreneurship and includes over 60 research questions to guide industrial organizational psychology organizational behavior and entrepreneurship research about entrepreneurs It seeks to answer questions such as how and why do some people but not others recognize opportunities decide to start new ventures and organize successful rapidly growing new ventures Some topics addressed include methods to help researchers explore the domain of entrepreneurship research the entire process of starting a new business characteristics of the individual entrepreneur the history of entrepreneurship education the cross cultural effects of entrepreneurship and the viewpoints of seasoned psychologists who analyze current entrepreneurship research methods This book will appeal to teachers students and researchers in the areas of industrial organizational psychology organizational behavior entrepreneurship and management **Toward a Psychology of Entrepreneurship** Michael Frese, 2009 Towards a Psychology of Entrepreneurship examines a theory of entrepreneurship its empirical base and its implications First it argues that a psychological approach is necessary to understand entrepreneurship Second it argues that any theory of entrepreneurship

should use active actions as a starting point entrepreneurship is the epitome of an active agent in the market rather than a reactive agent Third it discusses an action regulation theory to better understand the psychology of entrepreneurship Fourth it provides examples how this theory can help to understand entrepreneurial success Finally it suggests intervention programs to help entrepreneurs to be successful at growing their organizations Towards a Psychology of Entrepreneurship presents a descriptive definition of the entrepreneur It also emphasize that entrepreneurship does not necessarily imply the start up and growth of business organizations but is a more general phenomenon of starting social organizations and changing organizations Thus it also includes social entrepreneurs in its definition of the entrepreneur thus founders of social service organizations are considered part of the entrepreneurship landscape Positive Psychology in Everyday Life Margarida Pocinho, Soraia Garcês, Daniela Popa, 2022-06-28 Frontiers of Entrepreneurship Research, 2010

Entrepreneurial Orientation of Graduate Students in the University of Ibadan, South-West, Nigeria Ajibola Omoarebun, 2014-11-06 Academic Paper from the year 2014 in the subject Sociology Work Education Organisation grade 5 0 A University of Ibadan language English abstract Graduate unemployment in Nigeria is a chief cause of many social problems such as fraud armed robbery and so on Among the several reasons social researchers have listed as contributing factors to graduate unemployment a lack of comprehensive curricula in the higher institutions has been pin pointed to be crucial to the malaise of graduate unemployment Entrepreneurship education if imbibed in the curricula of tertiary institutions would instill entrepreneurial behavior in students and graduates which would further encourage graduates to become self reliant and employers of labor This study examined the levels of entrepreneurship orientation among graduate students in the University of Ibadan The study made use of theories of planned behaviour and creativity and innovation theories The sample was made up of 270 graduate students randomly drawn from six faculties of the University of Ibadan Qualitative and quantitative data for the study were collected through the use of questionnaires and in depth oral interviews The result showed that majority of the respondents 78% had never been exposed to entrepreneurship education upon the completion of their first degree More than half of the respondents 55 6% rated their level of entrepreneurial orientation as high 31 4% rated it as moderate and the remaining 13 0% rated it as low The paper asserts that graduate students are willing to become entrepreneurs if exposed to active entrepreneurship education as they are cognizant of the benefits of being self reliant and independent of the labor market **Cognitive Approaches to Entrepreneurship Research** Jerome A. Katz, Dean A. Shepherd, 2003-09-12 These papers provide an ongoing exploration of the major current theoretical and methodological efforts in the fields of entrepreneurship small and family business growth and firm emergence and growth *Kürschners deutscher Gelehrten-Kalender* Anna Kathrin Bleuler, 2008-12-12 In der 22 Ausgabe von Kürschners Deutschem Gelehrten Kalender werden rund 70 000 Wissenschaftlerinnen und Wissenschaftler die an einer deutschsprachigen wissenschaftlichen Institution tätig sind vorgestellt Aufgeführt sind die wichtigsten biographischen Daten Adressen Angaben zu

Covering the full spectrum of entrepreneurship at the individual enterprise and macroeconomic levels, this text features contributions from scholars and practitioners and has a global perspective. It integrates theory and practice to showcase emerging trends, ideas, insights and issues. Arbeit und Gesundheit Peter G. Richter, 2007. Entrepreneurial Policies and Strategies Mathew J. Manimala, 1999-06-08. Based on first-hand observation, interviews, published case studies and an extensive literature research, this pioneering book provides a novel theoretical perspective on the strategies and policy orientations of innovative new ventures. Innovation, Entrepreneurship and Culture Terrence E. Brown, J. M. Ulijn, 2004. Any technological advance, innovation or economic growth created by an organization is dependent on how that organization's culture and environment fosters or inhibits these developments. This process is further complicated by the global nature of economic activity and differences in national cultures due to country-specific histories, experiences, traditions and rules. The distinguished authors in this important new book aim to study the nature of organizational innovation and change by examining the complex interplay between entrepreneurship, innovation and culture. The book addresses a number of important questions, including why do so many technological firms fail to sustain entrepreneurial spirit, is a certain mindset required at the level of the individual entrepreneur, do successful entrepreneurial firms need a certain culture and if so, what elements make up that culture, what role does national culture, corporate culture and professional culture play, are these issues linked to high levels of innovation, technology development, progress and economic growth and if so, how are they related. The book's broad global perspective and multi-disciplinary analysis will ensure a wide and varied readership amongst academics, researchers and practitioners interested in technological and organizational change, entrepreneurship, innovation, management and cultural studies.

Kürschners deutscher Gelehrtenkalender Bettina Bartz, Axel Schniederjürgen, Marko Schweizer, 2005. The Survival of the Small Firm: The economics of survival and entrepreneurship James Curran, John Stanworth, David Watkins, 1986. *Entrepreneurship and Innovation* Rabindra N. Kanungo, 1998. Many developing countries are in a state of transition as they strive to move from a subsistence-oriented, tightly integrated, inward-looking economy to a surplus-seeking, market-led, outward-looking economy. This book develops conceptual models to explain entrepreneurship, focuses on the

entrepreneur as a person looks at small scale and rural enterprises and identifies management skills necessary to start and sustain small businesses **Dhaka University Journal of Business Studies** ,2007-12-02
