Cauvin,2022-05-18 The second edition of *Public History A Textbook of Practice* offers an updated guide to the many opportunities and challenges that public history practitioners can encounter in the field. Historians can play a dynamic and essential role in contributing to public understanding of the past and those who work in historic preservation in museums and archives in government agencies as consultants as oral historians or who manage crowdsourcing projects need very specific skills. This book links theory and practice and provides students and practitioners with the tools to do public history in a wide range of settings. This new edition reflects how much the field of public history has changed in the past few years with public history now being more established and international. New chapters have therefore been added on the definition of history and international scope of public history as well as on specific practices and theories such as historical fictions, digital public history and shared authority. Split into four sections, this textbook provides approaches, methodologies and tools for historians and other public history practitioners to play a bigger role in public debates and public productions of historical interpretations. Part I focuses on the past, present and future of public history. Part II explores public history sources and offers an overview of the creation, collection management and preservation of materials, archives, material culture, oral history or historical sites. Part III deals with the different ways in which public history practitioners can produce historical narratives through different media including texts, fictions, audio, visual productions, exhibitions and performances. Part IV discusses the opportunities and challenges that public history practitioners encounter when working with different collaborators. Whether in public history methods courses or as a resource for practicing public historians, this book lays the groundwork for making meaningful connections between historical sources and popular audiences.

Public History Faye Sayer,2015-02-26 *Public History A Practical Guide* explores history in the public sphere and examines the variety of skills that historians require in the practice of public history. It discusses how through various mediums of interpretation and presentation, a range of actors which include museums, archives, government agencies, community history societies and the media and digital media make history accessible to a wider audience. It provides the reader with an overview of the wider world application and communication of history beyond the classroom through core case studies for each sector that include ideas for best practice in the field. This book offers an accessible and engaging synopsis of a topic that has not previously been covered. By focusing on an area of study that has changed substantially in the last decade, *Public History A Practical Guide* presents a comprehensive outline of the practice of public history and provides ideas for future methodological approaches as well as a reference point for planning professional development in order to gain future employment in these sectors. In the current economic climate, students need to understand the potential use of history beyond university; this book contains the tools and advice needed for them to get one step ahead in terms of knowledge, skills and experience.

The Education of Historians for Twenty-first Century Thomas Bender,Philip F. Katz,Colin A. Palmer,Committee on Graduate Education,2010-10-01 An examination and analysis of history education in American colleges and universities In 1958 the American Historical Association began a study to determine the status and condition of history education in U S colleges and universities Published in 1962 and addressing such issues as the supply and demand for teachers student recruitment and training for advanced degrees that report set a lasting benchmark against which to judge the study of history thereafter Now more than forty years later the AHA has commissioned a new report The Education of Historians for the Twenty first Century documents this important new study s

remarkable conclusions Both the American academy and the study of history have been dramatically transformed since the original study but doctoral programs in history have barely changed This report from the AHA explains why and offers concrete practical recommendations for improving the state of graduate education The Education of Historians for the Twenty first Century stands as the first investigation of graduate training for historians in more than four decades and the best available study of doctoral education in any major academic discipline Prepared for the AHA by the Committee on Graduate Education the report represents the combined efforts of a cross section of the entire historical profession It draws upon a detailed review of the existing studies and data on graduate education and builds upon this foundation with an exhaustive survey of history doctoral programs This included actual visits to history departments across the country and consultations with scores of individual historians graduate students deans academic and non academic employers of historians as well as other stakeholders in graduate education As the ethnic and gender composition of both graduate students and faculty has changed methodologies have been refined and the domains of historical inquiry expanded By addressing these revolutionary intellectual and demographic changes in the historical profession The Education of Historians for the Twenty first Century breaks important new ground Combining a detailed historical snapshot of the profession with a rigorous analysis of these intellectual changes this volume is ideally positioned as the definitive guide to strategic planning for history departments It includes practical recommendations for handling institutional challenges as well as advice for everyone involved in the advanced training of historians from department chairs to their students and from university administrators to the AHA itself Although focused on history there are lessons here for any department The Education of Historians for the Twenty first Century is a model for in depth analysis of doctoral education with recommendations and analyses that have implications for the entire academy This volume is required reading for historians graduate students university administrators or anyone interested in the future of higher education
