Cheng, 2020 This book explores the contribution of competition to economic growth by way of both theoretical analysis of established growth models and empirical evidence **Education and Society in Hong Kong and Macao** M. Bray, Ramsey Koo, 2006-06-28 Hong Kong and Macao have much in common The dominant populations in both territories are Cantonese speaking Chinese both are small in area both are urban societies both have been colonies of European powers and both have undergone political transition to reunification with China Yet in education for reasons that are analysed in this book they are very different The patterns of similarities and differences in the two territories make a fascinating basis for comparative study The overarching theme of the book on continuity and change is particularly pertinent following the transition of the two societies of the postcolonial era This thoroughly revised and expanded second edition builds on the widely acclaimed first edition The work has been recognised as a significant contribution to the broad field of comparative education as well as to study of the specific societies which are its main focus *Education and Society in Hong Kong and Macao* Mark Bray, Ramsey Koo, 2005 *Privatizing Education* Henry Levin, 2018-03-05 Privatizing Education is a collection of essays written by such luminaries as Martin Carnoy Christopher Connell Wendy Connors Fred Doolittle Pearl Rock Kane Frank Kemerer Christopher Lauricella Arthur Levine Ellen Magenheimer Patrick McEwan Lee D Mitgang David Myers Gary Natriello Caroline Persell Mark Schneider Janelle Scott Geoffrey Walford and Amy Stuart Wells who examine the efforts of some educators reformers investors and political groups to move education from the public to the private sector This is occurring through tuition tax credits voucher initiatives and for profit educational management organizations The volume grows out of a conference that took place at Columbia University's Teachers College which launched the National Center for the Study of Privatization in Education **Marketizing Education and Health in Developing Countries** Christopher Colclough, 1997 This book draws on evidence from a large number of developing countries to assess the impact of market reforms on the provision of education and health services The contributors show that approaches that seek merely to pass more of their costs to consumers perform less well than is often claimed and that improved cost effectiveness of health and education systems requires far more than changes in the sources and mechanisms of obtaining finance *Research Handbook on Education Privatization and Marketization* Adrián Zancajo, Clara Fontdevila, Huriya Jabbar, Antoni Verger, 2025-02-12 This Research Handbook analyses global trends within education
