Polar Pilot The Carl Ben Eielson Story:

Polar Pilot Dorothy Guzzi Page, Ada M. Drache, Hiram M. Drache, 1992 Polar Pilot Hiram Drache, 1992-12-01 This is a story of the one of America's unsung heroes in the field of aviation Carl Ben Eielson Eielson grew up in an upper middle class family in Hatton North Dakota and was endowed with sufficient talent to make a comfortable living in any career he desired Since early in life he dreamed of nothing but flying After being trained as a military pilot in World War I he spent two years as a barnstormer in the upper Midwest In the fall of 1922 he went to Alaska to teach school and at once saw the need for aerial transportation in that massive uncharted land of isolated settlements In 1923 he flew the first airmail flight in interior Alaska which made him an instant hero to all Alaskans who were accustomed to waiting for months between mail deliveries In 1924 he flew the first airmail flight under government contract between Fairbanks Nenana and McGrath His fame as a pioneer bush pilot enabled him to win the pilot's position with Sir Hubert Wilkins and the two thrilled the world with their flight from Barrow to Spitzbergen and later with their flights in the Atlantic In 1929 at age 32 Eielson met death while on a flight over the frozen wastes of Siberia A 100 day three nation search kept his name before the public in 1929-30 but exploits and contributions have all been forgotten *Alaska's First Bush Pilots, 1923-30* Jim Rearden, 2014-04-04 This book follows the careers of Alaska's pioneering pilots who with cranky open cockpit biplanes started the great change in Alaska's way of travel Aviation first arrived at Fairbanks the trade center of mainland Alaska from which dog sled trails spider web to mines villages and trap lines During winters goods and people traveled mostly by dog sled During the summer of 1923 Ben Eielson was the first to fly commercially from Fairbanks ferrying passengers and light freight with an open cockpit Jenny JN4 biplane It was the beginning of the leap from ground travel to the air Noel Wien was the next In the summers of 1924-26 he flew open cockpit biplanes from Fairbanks Starting in 1927 he flew a cabin biplane year around on scheduled flights in the 579 miles between Fairbanks and Nome In March 1929 Wien flew from Alaska to the Elisif an ice locked trading schooner in Siberia to return with a load of valuable furs In the following November Ben Eielson repeated this flight to the Nanuk another ice bound trading schooner in Siberia And when he and his mechanic Earl Borland returned for a second load of Siberian fur their Hamilton airplane disappeared in a winter snowstorm This brought on one of the most famous and difficult aerial searches ever made from and in Alaska By the 1930s Alaska's growing aviation industry had revolutionized transportation in the Territory This volume is a fond look back at the triumphs and tragedies of the pioneering Ben Eielson Noel Wien Harold Gillam Joe Crosson Ed Young and others the great pilots who were the first bush pilots of Alaska Noel Merrill Wien Noel Merrill Wien, 2016-04-19 Born into a family of aviators Merrill Wien was destined to become a pilot His father Noel Wien was one of the first pilots to fly in Alaska and his life was full of firsts including making the first round trip flight between Asia and North America in 1929 His mother played a big role in the founding and development of Wien Alaska Airlines the second oldest scheduled airline in the United States and territories One of the most versatile and experienced

pilots of his time Merrill has flown just about every aircraft imaginable from DC 3s to Lockheed 1011s to historic military planes like the cargo C 46 and B 29 bomber to the Hiller UH 12E chopper Although fundamentally modest by nature family and friends encouraged Merrill to share his remarkable stories given his accomplishments and experiences with so many famous people and events His tone is engagingly informal as he recounts crossing paths with such luminaries as Joe Crosson Howard Hughes Lowell Thomas Sr and Lowell Thomas Jr Sam White Don Sheldon Brad Washburn Wally Schirra and Bill Anders He re creates for readers his firsthand experiences flying top secret missions for the Air Force viewing the devastation of the Good Friday Earthquake in Anchorage and the challenges of starting his own helicopter company to name just a few His fascinating narrative is complemented by photographs from his personal archives **Antarctica's Lost**

Aviator Jeff Maynard,2019-02-05 By the 1930s no one had yet crossed Antarctica and its vast interior remained a mystery frozen in time Hoping to write his name in the history books wealthy American Lincoln Ellsworth announced he would fly across the unexplored continent The main obstacles to Ellsworth s ambition were numerous he didn t like the cold he avoided physical work and he couldn t navigate Consequently he hired the experienced Australian explorer Sir Hubert Wilkins to organize the expedition on his behalf While Ellsworth battled depression and struggled to conceal his homosexuality Wilkins purchased a ship hired a crew and ordered a revolutionary new airplane constructed The Ellsworth Trans Antarctic Expeditions became epics of misadventure as competitors plotted to beat Ellsworth crews mutinied and the ship was repeatedly trapped in the ice A few hours after taking off in 1935 radio contact with Ellsworth was lost and the world gave him up for dead Antarctica s Lost Aviator brings alive one of the strangest episodes in polar history using previously unpublished diaries correspondence photographs and film to reveal the amazing true story of the first crossing of Antarctica and how against all odds it was achieved by the unlikeliest of heroes History of Alaska , Volume II Jonathan M. Nielson, Ph.D.,2018-03-01 The most significant military development to touch Alaska during the interwar years was the advent of air power an innovation that completely altered Alaska s strategic position Suddenly the world became smaller as areas once thought safely distant from potential enemies became vulnerable Nowhere was this more evident than in the Pacific whose countless islands became potential advanced air bases As air technology improved the ability of long range bombers and by the 1930s of carrier aircraft to penetrate American airspace was a development of far reaching significance While such warnings were largely limited to a handful of air power advocates their vocal advocacy constituted nothing less than an insurrection a revolution in military thinking fought against entrenched military conservatism cultural aversion to change fears of budget cuts and War Department lethargy Indeed it was the air power crusader General Billy Mitchell who aggressively fought to convince the War and Navy Departments to embrace the new doctrine of offensive air power Mitchell came to understand Alaska s strategic importance early on Consequently he saw the Aleutians as a vulnerability if left unguarded Japan could creep up and by establishing air dominance take Alaska and Canada s West Coast But he also saw

Alaska as a strategic base from which American planes could reduce Tokyo to powder Prophetically in 1923 Mitchell forecast precisely the military threat and strategic arguments that would shape military thinking almost twenty years later I am thinking of Alaska In an air war if we were unprepared Japan could take it away from us first by dominating the sky and creeping up the Aleutians By the mid to late 1930s military and civilian advocates of air power and more visionary strategists were beginning to make their voices heard in Congress and elsewhere decrying Alaska's military vulnerability Between 1933 and 1944 no one was more adamant than Alaska's Delegate in Congress Anthony Joseph Tony Dimond who challenged the nation to defend itself by defending Alaska To Dimond it seemed poor strategy to fortify one pacific base Hawaii while ignoring another Alaska Dimond's campaign was strengthened by passage of the Wilcox Bill sponsored by Representative J Mark Wilcox D Florida officially known as the National Air Defense Act This truly significant legislation authorized the location and construction of military airfields throughout the United States as a general defense preparedness measure Alaska was recognized as one of the nation's six strategic regions and two bases one at Anchorage the other at Fairbanks were recommended in part because Alaska was closer to Japan than it is to the center of the continental United States Fortuitously for Alaska defense advocates General Douglas MacArthur stepped down as Chief of Staff of the Army and was replaced by Major General Malin Craig in October 1935 Craig and Brigadier General Stanley D Embick advocated a substantial reconfiguration of Plan Orange arguing that the Philippines presented an invitation to attack and should be neutralized in favor defending the Alaska Hawaii Panama Triangle Both the Army and Navy were charged with defending Alaska as far west as Dutch Harbor and the army pledged to mobilize 6 600 troops in Alaska within a month of attack by Japan In contemplating the defense of Alaska the Army General Staff formulated five priority objectives first increase the Alaska garrison second establish a major base for Army operations near Anchorage third develop a network of air bases within Alaska fourth garrison these bases with combat troops and fifth protect the naval installations at Sitka Kodiak and Dutch Harbor Alaska was about to go to war

Alaska's Skyboys Katherine Johnson Ringsmuth,2015-10-01 This fascinating account of the development of aviation in Alaska examines the daring missions of pilots who initially opened up the territory for military positioning and later for trade and tourism Early Alaskan military and bush pilots navigated some of the highest and most rugged terrain on earth taking off and landing on glaciers mudflats and active volcanoes Although they were consistently portrayed by industry leaders and lawmakers alike as cowboys and their planes compared to settlers covered wagons the reality was that aviation catapulted Alaska onto a modern global stage the federal government subsidized aviation's growth in the territory as part of the Cold War defense against the Soviet Union Through personal stories industry publications and news accounts historian Katherine Johnson Ringsmuth uncovers the ways that Alaska's aviation growth was downplayed in order to perpetuate the myth of the cowboy spirit and the desire to tame what many considered to be the last frontier
