**Thinking about Public Policy** Melvin J. Dubnick, Barbara A. Bardes, 1983

*The Politics of Urban Development* Clarence Nathan Stone, Heywood T. Sanders, 1987 In the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development Urban scholars have come to recognize that cities are shaped by forces beyond their boundaries From that focus have emerged the views that

cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed But what else needs to be said about the policies and politics of urban development To supplement prevailing theories The Politics of Urban Development argues that the role of local actors in making development decisions merits closer study Whatever the structural constraints politics still matters Collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to assert a significant degree of influence over the shared destiny of an urban population The impact of the collection is to heighten awareness of local political practices and of how and why they make a difference

*Collective Decision Making in Water Resource Planning* Roy Burke, James P. Heaney, 1975      Social Policy Evaluation Elhanan Helpman, Assaf Razin, Efraim Sadka, 1983      **Private Interests, Public Policy, and American Agriculture** William Paul Browne, 1988      **Public Policy Analysis** William N. Dunn, 1994 This multidisciplinary synthesis of concepts and methods of public policy analysis takes a systematic approach to creation critical assessment and communication of policy relevant knowledge stresses the process of formulating policy problems as crucial step in solving them In addition he emphasizes the need to understand the political contexts in which policy analysis is practiced and the application of policy analysis in increasingly complex societies Back cover      *Policy Evaluation*, 1996      Writing and Reading Differently George Douglas Atkins, Michael L. Johnson, 1985      **Proceedings of the Symposium on Surface Water Impoundments, June 2-5, 1980, Minneapolis, Minnesota** Heinz G. Stefan, 1981      **Unfair Housing** Mara S. Sidney, 2003 It is difficult to ignore the fact that even as the United States becomes much more racially and ethnically diverse our neighborhoods remain largely segregated The 1968 Fair Housing Act and 1977 Community Reinvestment Act promised to end discrimination yet for millions of Americans housing options remain far removed from the American Dream Why do most neighborhoods in American cities continue to be racially divided The problem suggests Mara Sidney lies with the policies themselves She contends that to understand why discrimination persists we need to understand the political challenges faced by advocacy groups who implement them In *Unfair Housing* she offers a new explanation for the persistent color lines in our cities by showing how weak national policy has silenced and splintered grassroots activists Sidney explains how political compromise among national lawmakers with divergent interests resulted in housing legislation that influenced how community activists defined discrimination what actions they took and which political relationships they cultivated As a result local governments became less likely to include housing discrimination on their agendas existing laws went unenforced and racial segregation continued A former undercover investigator for a fair housing advocacy group Sidney takes readers into the neighborhoods of Minneapolis and Denver to show how federal housing policy actually works She examines how these laws played out in these cities and reveals how they eroded activists capability to force more sweeping reform in housing policy Sidney also

shows how activist groups can cultivate community resources to overcome these difficulties looking across levels of government to analyze how national policies interact with local politics In the first book to apply policy design theories of Anne Schneider and Helen Ingram to an empirical case Sidney illuminates overlooked impacts of fair housing and community reinvestment policies and extends their theories to the study of local politics and nonprofit organizations Sidney argues forcefully that understanding the link between national policy and local groups sheds light on our failure to reduce discrimination and segregation As battles over fair housing continue her book helps us understand the shape of the battlefield and the prospects for victory      **Time, Politics, and Policies** Burdett A. Loomis, 1994 Loomis observed the politics of policymaking in Kansas from May 1988 through May 1989 Using specific examples he shows how deadlines occur in regular predictable patterns in the development of issues in subsequent policy decisions and explains how they ultimately narrow the choices presented to any legislative body
