Policy and Power in Inclusive Education Melanie Nind, Jonathan Rix, Kieron Sheehy, Katy Simmons, 2023-04-14 The movement towards inclusive education is undoubtedly an international phenomenon and it has resulted in the development of policy initiatives impacting on schools in all nations This informative wide ranging text brings together key illustrative material from an international field It adopts a critical perspective on policy issues but goes beyond this by making explicit the assumptions that drive policy development Readers will be encouraged to develop their own framework allowing them to conduct policy analysis and evaluation within their own educational context Students and researchers interested in how principles of inclusive education are being translated into educational practices around the world will find this book an enlightening read Disabled Students in Education: Technology, Transition, and Inclusivity Moore, David, 2011-10-31 There can be little doubt that the rapid technological developments that have characterized the decades since the middle of the 19th century have given great scope for improving the quality of life of disabled people Disabled Students in Education Technology Transition and Inclusivity reports on 15 research projects aimed at improving the educational prospects of disabled people Through its discussion of three main themes technology transition and inclusivity this book aims to be of interest to disabled students their parents and teachers and the people who run and set policies for their educational providers Using an Inclusive Approach to Reduce School Exclusion Tristan Middleton, Lynda Kay, 2019-08-29 Clear and accessible Using an Inclusive Approach to Reduce School Exclusion supports an inclusive approach to teaching and learning to help schools find ways to reduce exclusion and plan alternative approaches to managing the pathways of learners at risk Offering a summary of the contemporary context of DfE and school policy in England this book considers Statistics and perspectives from Ofsted The literature of exclusion and recent research into effective provision for learners with SEN The key factors underlying school exclusion Case studies and practical approaches alongside theory and research The impact of exclusion on learners at risk Written by experienced practitioners Using an Inclusive Approach to Reduce School Exclusion encourages a proactive approach to reducing exclusion through relatable scenarios and case studies An essential toolkit to support the development of inclusive practice and reduce exclusion this book is an invaluable resource for SENCOs middle and senior leaders Inclusive Education in African Contexts Nareadi Phasha, Dikeledi Mahlo, George J. Sefa Dei, 2017-04-13 How do we articulate the possibilities limitations and challenges of inclusive schooling and education in African contexts This book insists that inclusive education cannot be taken for granted Inclusion is neither a natural nor a given educational practice It must be struggled for Bringing a critical perspective to inclusive schooling and education is imperative This book adds to current educational debates with an African lens It engages inclusive education from multiple lenses of curriculum content classroom pedagogy and instruction representation culture environment and the socio organization life of schools the pursuit of equity and social justice and the search for educational relevance It is opined that

Africa cannot be left behind in rethinking educational inclusion in ways that evoke critical questions of power equity and social difference The question of leaner's identity in terms of class gender sexuality disability language ethnicity and race are equally consequential for African schooling and education When inclusion is understood as wholeness of education then how schooling and education engage the complete learner her his body mind soul and spirit as well as the use of local community and Indigenous knowledges in teaching and learning become relevant Inclusion stands the risk of liberal educational agendas that simply tinker or toy with schooling and education and hardly embrace the challenge of educational change What we need is a fundamental structural change that ensures schooling and education embraces difference while grappling with the teaching of Indigeneity decolonization and resistance **Inclusive Education, Politics and Policymaking** Anastasia Liasidou,2012-02-23 Inclusive Education in Italy Simona D'Alessio, 2012-01-01 This book provides an innovative and thought provoking analysis of the policy of integrazione scolastica from an inclusive perspective Drawing on historical and empirical research methods the book arises out of an ethnographic study which investigates the extent to which the policy of integrazione scolastica can be considered an inclusive policy. The author poses two fundamental questions why are there episodes of micro exclusion and discrimination against disabled pupils still taking place in regular schools after more than 30 years have passed since the enactment of such a progressive policy Can the policy of integration lead to the development of inclusion in Italy The research findings presented in the book indicate that exclusion and discrimination towards disabled pupils in education do not result from a lack of implementation of the policy at a school level rather from the perpetuation of dominant discourses which construct disability as an individual deficit The book does not deny the progress made in the country following the application of this anti discriminatory policy rather it challenges the hegemonic abilist culture and the traditional perspectives of disability and schooling that undermine the development of inclusive education After having investigated the theoretical premises of the policy of integration the author argues that this progressive policy is still rooted in a special needs education paradigm and that what was once a liberating policy has been transformed into a hegemonic tool which still manages controls and normalizes disability leaving school settings and teaching and learning routines unchanged She finally argues for a human rights approach for the development of an inclusive school for the 21st century The book is an essential reading for academics policy makers researchers and students involved in education as it links ideological pressures to practical analyses **Rethinking Inclusive Education: The Philosophers** of Difference in Practice Julie Allan, 2007-11-07 One of the important responsibilities that advocates of inclusion need to continually practise is that of self criticism This includes examining and re examining the assumptions informing our perspectives the concepts that we use including inclusive education and our intentions especially in relation to the question of change We need to beware of the danger of unexamined orthodoxies the possibilities of ado ing inclusive language with little if any changes in our thinking and practice and a sterile and insensitive position with regard to the pursuit of new or

alternative ideas In this very important book Allan powerfully reminds us of the necessity and centrality of these concerns and provides a direct perceptive and thoughtful exami tion and critique of the varied barriers to the task of how to make inclusion happen Allan challenges the reader to step back and re examine the rationale for inclusion through an alternative mindset She challenges the varied attacks upon inclusion including those in the education business to stop using economic it costs too much and pedagogical it is bad for the other children in the class and traumatic for the disabled children and social just too much for the teacher's workload reasons for closing the door and doing the right thing and those who argue that American Book Publishing Record ,2007 inclusion was an experiment that did not work The British National Bibliography Arthur James Wells, 2006 Book Review Index ,2006 Every 3rd issue is a quarterly cumulation **Iournal** of **Disability Policy Studies** ,2007 **Resources in Education** ,1997 **Collaborating for Effectiveness** Jennifer Mary Evans, 1999 Analyzes the current context within which schools are required to meet a diverse range of learning needs The authors of this text draw on their research to illustrate the variety of collaborative arrangements which exist and make some recommendations for the future organization of schools and services to support a more inclusive education system.
