Political Concepts

Felix E. Oppenheim

Political Concepts:

Introduction to Political Concepts John Hoffman, Paul Graham, 2006 This student friendly introduction to contemporary concepts and ideas will show why an understanding of political concepts is crucial to an understanding of political issues By using real life examples to relate political ideas to political realities the hugely experienced author team make the subject lively and contentious in order to stimulate students to think about political theories in a new and refreshing way Introduction to Political Concepts discusses traditional concepts such as state liberty and justice Using exposition and argument the book enables readers to understand these traditional concepts and to develop a position on them It also covers contemporary concepts such as difference human rights and terrorism where the problems that these concepts address have either developed recently or have been given a new urgency by contemporary events Suitable for 1st and 2nd year undergraduates studying political theory

Political concepts and time Javier Fernández Sebastián , Hans Erich Bödeker , Pim den Boer , Peter Burke , Giuseppe Duso , Alexandre Escudier , João Feres Júnior , Michael Freeden , Jacques Guilhaumou , Jörn Leonhard , Christian Meier , Faustino Oncina , Kari Palonen , Elías José Palti , 2011-08-10 The essays compiled in this volume written by distinguished experts present a broad panorama of the most important methodological challenges faced by conceptual history today as well as some more specific contributions regarding the temporal dimension of certain modern concepts At a moment when time and concepts and political concepts in particular are no longer obvious and taken for granted but have themselves become historical matter this book does not limit itself to an updating of the state of the art it also offers very useful lessons for the development of future research into this field

Political Concepts Adi M. Ophir, Ann Laura Stoler, 2018-01-02 Deciding what is and what is not political is a fraught perhaps intractably opaque matter Just who decides the question on what grounds to what ends these seem like properly political questions themselves Deciding what is political and what is not can serve to contain and restrain struggles make existing power relations at once self evident and opaque and blur the possibility of reimagining them differently Political Concepts seeks to revive our common political vocabulary both everyday and academic and to do so critically Its entries take the form of essays in which each contributor presents her or his own original reflection on a concept posed in the traditional Socratic question format What is X and asks what sort of work a rethinking of that concept can do for us now The explicitness of a radical questioning of this kind gives authors both the freedom and the authority to engage intervene in critique and transform the conceptual terrain they have inherited Each entry either implicitly or explicitly attempts to re open the question What is political thinking Each is an effort to reinvent political writing In this setting the political as such may be understood as a property a field of interest a dimension of human existence a set of practices or a kind of event Political Concepts does not stand upon a decided concept of the political but returns in practice and in concern to the question What is the political by submitting the question to a field of plural contention The concepts collected in Political Concepts are Arche Stathis Gourgouris Blood Gil Anidjar Colony

Ann Laura Stoler Concept Adi Ophir Constituent Power Andreas Kalyvas Development Gayatri Spivak Exploitation tienne Balibar Federation Jean Cohen Identity Akeel Bilgrami Rule of Law J M Bernstein Sexual Difference Joan Copjec and Translation Jacques Lezra *Political Concepts And Political Theories* Gerald Gaus,2018-02-20 This book presents an analysis of the political concepts It focuses on enduring disputes about the nature of freedom power equality justice democracy and authority The book is useful for both first year and advanced students who seek to learn more about political theory **Political Concepts** Richard Bellamy,Andrew Mason,2003-08-02 Table of contents *Political Concepts* Felix E. Oppenheim,1981-01 **Political Beliefs** Oliver Traldi,2024-05-14 Anyone who s had an argument about politics with a friend may walk away wondering how this friend could possibly hold the beliefs they do A few self reflective people might even wonder about their own political beliefs after such an argument This book is about the reasons that people have and could have for political beliefs the evidence they might draw on the psychological sources of their views and the question of how we ought to form our political beliefs if we want to be rational The book s twenty four chapters are divided into four larger parts which cover the following 1 the differences between political and other types of beliefs 2 theories of political belief formation 3 sources of our political beliefs and how we might evaluate them and 4 contemporary phenomena like polarization fake news and conspiracy theories related to political beliefs Along the way the book addresses questions that will arise naturally for many readers like Does the news you choose to watch and your own social media leave you stuck in an information bubble Are you committed to a certain ideology because of the history of your society Are people who believe fake news always acting irrationally Does democracy do a good job of figuring out what s true Are some political beliefs good and some evil As the book investigates these and other questions it delves into technical philosophical topics like epistemic normativity the connection between belief and action pragmatic encroachment debunking arguments and ideology critique Chapter summaries and discussion questions will help students and all interested readers better grasp this new important area on the border of politics and philosophy Key Features Systematically covers the political turn in contemporary epistemology and integrates it with important work in other fields like psychology and political science In addition to deep coverage of the nature of political belief includes material on the ethics of political belief and how we ought to form our beliefs Approaches topics that naturally interest students like political disagreement fake news conspiracy theories and the morality of belief Provides a Conclusion and Discussion Questions at the end of each chapter prompting student readers to think more clearly and deeply about the material they ve read The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution CC BY 4 0 International license

Contemporary Political Concepts Georgina Blakeley,Valerie Bryson,2002-04-20 The language of political debate and analysis has changed dramatically in recent years Today both academics and practitioners have largely abandoned the vocabulary of the left and replaced it with a set of concepts that structure debate and set the political agenda Thus the world

economy is discussed in terms of globalisation instead of international capitalism Moreover the apparently benign concepts of civil society citizenship and stakeholder have replaced those of class and class conflict poverty is about social exclusion rather than exploitation and consumer choice and worker empowerment have replaced the pursuit of class interests In today's political climate socialism is seen as old fashioned or utopian In contrast capitalism is seen as realistic and the third way is presented as the solution to all our ills This book explores the real issues behind these catchphrases of modern politics explaining what they mean and offering a critique of the ideology of which they are a part Political Concepts Iain M. Mackenzie, 2005 This textbook offers both an introduction to and key readings in political concepts Organised to reflect the broad nature of politics there are parts on normative political philosophy democratic theory political sociology and emergent paradigms such as poststructuralism and feminism **Political Ideas of M.S. Golwalkar** Ritu Kohli, 1993 *Mind and Political Concepts* Ezra Talmor, 2013-10-22 *Mind and Political Concepts* provides a descriptive account of the Conceptual Method as applied to Political Philosophy The starting point of this six chapter book is the analysis of the notions of psychological coercion and of social coercion and on the basis of this analysis to evolve a notion of political obligation The first three chapters cover the three classical political philosophies Plato's philosophical method and its influence in fixing the realm of inquiry of the political order the structure of human behavior science versus dialectic Hobbes scientific conceptual method and Rousseau unphilosophical analysis of human nature and the state The succeeding chapter describes the structure of a political theory A chapter focuses on the concept of scientific psychology as the ultimate principle The final chapter is devoted to the analysis of the notion of participation as the kind of active or passive part taken by social men statesmen journalists and philosophers in the political continuum This book will be of value to the non specialists who are interested in political structure and psychology 50 Political Ideas You Really Need to Know Ben Dupre, 2011-04-28 At a time of widespread popular cynicism and profound international unease the need for clarity over the basic concepts of politics has never been greater The forces of Fundamentalism endanger our Liberty and Security while government responses to it may pose a basic threat to Justice Democracy and Human rights Corruption War and Tyranny arouse public indignation which is often inflamed by Propaganda the blandishments of Political parties and the far from disinterested attentions of the Media The proper limits of the State the legitimacy of Revolution and Political violence the ideological tensions between Socialism Liberalism and Capitalism the challenges posed by Poverty Crime and Racism these and other ideas are essential in interpreting the current political debate and modes of government In 50 Political Ideas You Really Need to Know Ben Dupre provides a clear concise account of key concepts that we ignore at our peril **Political Concepts and Political Theories** Gerald F. Gaus, 2000 This is an introductory text which sets out to show how the most basic political concepts such as freedom and justice are woven together and given structure forming them into comprehensive political theories such as classical liberalism The Great Art of Government Peter Josephson, 2002 Moving beyond previous

scholarship he gives us a Locke as much concerned with the effective functioning of government as with the roots of its moral legitimacy

BOOK JACKET Theories and Concepts of Politics Richard Paul Bellamy, 1993 An introduction to social and political theory discussing such topics as freedom citizenship and rights social justice and equality and constitutionalism and democracy The authors show how people view these concepts in different ways They also offer solutions for resolving disputes

Political Theory Scott John Hammond, 2008-11-30 Liberty Justice Nature Law First formulated millennia ago by the founding philosophers of the Western tradition these basic concepts of human thought remain central to our conception of ourselves our place in the world and our relationships with others that is our politics Readers encountering such broad political concepts their practical expressions in political movements and systems of government the ideas of influential ancient and modern political thinkers or simply familiar or unfamiliar catchphrases for which they would like a succinct yet informative explanation will welcome this accessible encyclopedic guide The major political concepts themes issues movements groups and schools that have developed over time and shaped our modern world appear here in all their diversity along with biographical entries and articles on the principal works of political theorists from Plato to John Rawls Further serious students and browsers alike will delight in the numerous entries on familiar quotations and political catchphrases from the banality of evil and Big Brother to the war of all against all

Understanding Political Ideas and Movements Kevin Harrison, Tony Boyd, 2003-12-05 Underpinned by the work of major thinkers such as Marx Locke Weber Hobbes and Foucault the first half of the book looks at political concepts including the state and sovereignty the nation democracy representation and legitimacy freedom equality and rights obligation and citizenship There is also a specific chapter which addresses the role of ideology in the shaping of politics and society The second half of the book addresses traditional theoretical subjects such as socialism Marxism and nationalism before moving on to more contemporary movements such as environmentalism ecologism and feminism

The Concept of Authority in the Thought of Hannah Arendt Wayne Francis Allen, 1979

Political Ideas of the American Revolution Randolph Greenfield Adams, 1922

Democracy, Bureaucracy, and Character William D. Richardson, 1997 Most American citizens are quick to criticize federal bureaucracy for its size and inefficiency They assume it has exceeded the intent of our nation's founders yet men like James Madison and Alexander Hamilton knew that good public administrators were essential to good government William Richardson here examines the origins legitimacy and limitations of public administration from the perspective of the Founders thought He shows that these men especially the authors of *The Federalist* advocated an energetic public administration as an essential component of government and even considered the emergence of a natural aristocracy of virtuous civil servants The Founders would see the fault of today's federal bureaucracy argues Richardson not as much in its size as in the character of its members Richardson relates the Founders belief that the nation should strive to produce public servants committed to developing character traits such as wisdom and moderation that would exemplify the highest ideals of

the republic and thus ensure its survival They anticipated some self interest on the part of administrators but believed it would be held in check by public opinion and the political process To test the success of the Founders ideal Richardson examines both the character of administrators and the role of ethics in forming that character He explores the various plans for educating public leaders throughout American history and looks at how attitudes toward public administration have changed in this century from Woodrow Wilson s scientific ideal to recent proposals to downsize government Among other suggestions Richardson advocates reforming existing institutions by emphasizing character Democracy Bureaucracy and Character is an exercise in legitimizing public administration offering important insights into the Founders thoughts that can be applied to today s debate over government bureaucracy Public administration may be problematic by nature observes Richardson but it is crucial to our form of government Through his analysis we can see that while bureaucracy and democracy have long had an uneasy relationship neither can be effective unless we fully assess the place and purpose of character in the American regime

The Enigmatic Realm of **Political Concepts**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Political Concepts** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of people who partake in its reading experience.
