Protestant Political Parties Paul Freston, 2017-03-02 The recent global expansion of

Protestant Christianity and the increase in multiparty democracies has led to the multiplication of Protestant political parties. One cannot talk of Protestant parties today without mentioning countries as diverse as Norway, Latvia, New Zealand, Indonesia, Zambia, and Nicaragua. Whilst the well-established parties of the Netherlands and Scandinavia have long been studied, Paul Freston's groundbreaking book is the first global survey of this phenomenon. After looking at the traditional Protestant heartlands of Europe and the English-speaking world, Freston traces the spread of the Protestant party model to post-communist countries, the Pacific, the Muslim world, southern Africa, and Latin America. He examines the circumstances favouring such parties and the political projects they represent. The conclusion analyses the diversity of Protestant parties due to different interpretations of Christian politics and varied contexts. This unique book will interest specialists and non-specialists across disciplines and in many parts of the world.

Development And Democracy In The Third World Abbas Pourgerami, 1991-10-17 In this original study, Abbas Pourgerami provides a comprehensive analysis of economic development and its relationship to political democracy. Evaluating statistical associations among social, economic, and political performance variables of 104 Third World countries, Pourgerami determines the prospects for democracy in the developing world. He demonstrates that economic well-being and political liberty are mutually reinforcing processes, challenging the traditional notion that economic progress necessitates sacrifices to democratic government.

Lebanese Political Parties Christian Thuselt, 2021-05-19 This book examines Lebanese political parties and their encounters with modernity. Taking three mainly Christian parties as an example, the book refutes the idea of Middle Eastern parties being backwards or antiquated. By combining historical and anthropological perspectives, it is shown that these parties stand for normativities of modernity. Lebanese as well as Middle Eastern parties in general have a rather poor reputation; they are considered family-based, ideologically meaningless, tailored solely to their leadership, and non-modern. Contrastingly, this book claims that the concept of the real party corresponds to an encounter with modernity and that these parties, although dysfunctional in parts, are better than their reputation. Most importantly, Lebanese parties are taking the nation-state as their central reference point as they recognise it as the legitimate form of societal organization. The volume claims that important constituents of modernity, such as the individual, the nation, secularity, progress, and representing the people, serve for the parties in question as resources of utopian elements informing much of these parties' identities. Bringing Lebanese political parties into a global debate on modernity, the book tackles the notion of parties of the Middle East being non-modern. It will be of interest to scholars researching political science, political history, and the Middle East.
