Dem'iānovich Uspenskii,1989 *The Psychology of Man's Possible Evolution* P. D. Ouspensky,2017-07-22 The Psychology of Man s Possible EvolutionBy P D Ouspensky *The Psychology of Man's Possible Evolution* Peter Demianovich Ouspensky,1973-01-01 SOME YEARS ago I began to receive letters from readers of my books All these letters contained one question what I had been doing after I had written my books which were published in English in 1920 and 1931 and had been written in 1910 and 1912 I could never answer these letters It would have needed books even to attempt to do this But when the people who wrote to me lived in London where I lived after 1921 I invited them and arranged courses of lectures for them In these lectures I tried to answer their questions and explain what I had discovered after I had written my two books and what was the direction of my work In 1934 I wrote five preliminary lectures which gave a general idea of what I was studying and also of the lines along which a certain number of people were working with me To put all that in one or even in two or three lectures was quite impossible so I always warned people that it was not worth while hearing one lecture or two but that only five or better ten lectures could give an idea of the direction of my work These lectures have continued since then and throughout this time I have often corrected and rewritten them On the whole I found the general arrangement satisfactory Five lectures were read in my presence or without me listeners could ask questions and if they tried to follow the advice and indications given them which referred chiefly to self observation and a certain self discipline they very soon had a quite sufficient working understanding of what I was doing I certainly recognised all the time that five lectures were not sufficient and in talks that followed them I elaborated and enlarged the preliminary data trying to show people their own position in relation to the New Knowledge I found that the chief difficulty for most people was to realise that they had really heard new things that is things that they had never heard before They did not formulate it for themselves but in fact they always tried to contradict this in their minds and translate what they heard into their habitual language whatever it happened to be And this certainly I could not take into account I know that it is not an easy thing to realize that one is hearing new things We are so accustomed to the old tunes and the old motives that long ago we ceased to hope and ceased to believe that there might be anything new And when we hear new things we take them for old or think that they can be explained and interpreted by the old It is true that it is a difficult task to realize the possibility and necessity of quite new ideas and it needs with time a revaluation of all usual values I cannot guarantee that you will hear new ideas that is ideas you never heard before from the start but if you are patient you will very soon begin to notice them And then I wish you not to miss them and to try not to interpret them in the old way *The Psychology of Man's Possible Evolution* Petr D. Uspenskij,1978 *The Psychology of Man's Possible Evolution* ,1967 *Handbook of New Religions and Cultural Production* Carole Cusack,Alex Norman,2012-03-28 This volume fills a lacuna in the academic assessment of new religions by investigating their cultural

products such as music architecture food et cetera Contributions explore the manifold ways in which new religions have contributed to humanity s creative output

Manhattan Cult Story Spencer Schneider,2022-07-05 We were invisible We had to be We took an oath of absolute secrecy We never even told our immediate families who we were We went about our lives in New York City Just like you We were your accountants money managers lawyers executive recruiters doctors We owned your child s private school and sold you your brownstone But you d never guess our secret lives how we lived in a kind of silent terror and fervor There were hundreds of us Right under the noses of neighbors clients spouses children and friends a secret society simply called School a cult of snared Manhattan professionals has been led by the charismatic sociopathic and dangerous leader Sharon Gans for decades Spencer Schneider was recruited in the eighties and he stayed for more than twenty three years as his life disintegrated his self esteem eroded and he lined the pockets of Gans and her cult Cult members met twice weekly though they never acknowledged one another outside of meetings or gatherings In the name of inner development they endured the horrors of mental sexual and physical abuse forced labor arranged marriages swindled inheritances and savings and systematic terrorizing Some of them broke the law All for Gans During those years Schneider writes my world was School That s what it s like when you re in a cult even one that preys on and caters to New York s educated elite This is my story of how I got entangled in School and how I got out At its core Manhattan Cult Story is a cautionary tale of how hundreds of well educated savvy and prosperous New Yorkers became fervent followers of a brilliant but demented cult leader who posed as a teacher of ancient knowledge It s about double lives the power of group psychology and how easy it is to be radicalized all too relevant in today s atmosphere of conspiracy and ideologue worship

Gurdjieff and the Fourth Way Stephen A. Grant,2024-08-20 A profound new look at Gurdjieff s life teaching and role as a spiritual leader through the lens of esotericism Gurdjieff warned against taking anything literally or on faith and he advised accepting only experience that could be lived oneself He also said that one has to find out how to know and that understanding higher knowledge depends on one s level of being The aim of the Fourth Way is toward a change of being from the level of man number one two and three to that of man number four Stephen Grant offers a fundamental reassessment of Gurdjieff as a

spiritual leader and the Fourth Way as an esoteric teaching This includes recognizing the Fourth Way as esoteric Buddhism This book outlines Gurdjieff's early life and view of ancient history followed by the itinerant course of his teaching from Russia in 1915 to his death in Paris in 1949 The discussion then focuses on his esoteric mission to bring the Fourth Way to the West and its three major stages 1 introducing the system of ideas to and through P D Ouspensky 2 writing his own theory of the teaching principally in *Beelzebub's Tales* and 3 passing on the practical teaching to and through Jeanne de Salzmann The last five chapters deal with Gurdjieff's relationship with his closest pupils his system of ideas his hidden doctrine in *Beelzebub's Tales* and the practical knowledge revealed by Mme de Salzmann *Gnosis: The mesoteric cycle* Boris Mouravieff, 1989 *A Different Christianity* Robin Amis, 2003-06-13 This book presents the esoteric original core of Christianity with its concern for illuminating and healing the inner life of the individual It is a bridge to the often difficult doctrines of the early church fathers explains their spiritual psychology and provides new insights for studying and following the spiritual path outside a monastery **Whitaker's Book List**, 1989 *Whitaker's Books in Print*, 1998 *Книжная лемонисъ*, 2001 *Whistle While You Work* John Robert Colombo, 2008 *Classical Spirituality in Contemporary America* Michael S. Pittman, 2012-03-08 G I Gurdjieff d 1949 remains an important if controversial figure in early 20th century Western Esoteric thought Born in the culturally diverse region of the Caucasus Gurdjieff traveled in Asia Africa and elsewhere in search of practical spiritual knowledge Though oftentimes allusive references to Sufi teachings and characters take a prominent position in Gurdjieff's work and writings Since his death a discourse on Gurdjieff and Sufism has developed through the contributions as well as critiques of his students and interlocutors J G Bennett began an experimental Fourth Way school in England in the 1970s which included the introduction of Sufi practices and teachings In America this discourse has further expanded through the collaboration and engagement of contemporary Sufi teachers This work does not simply demonstrate the influence of Gurdjieff and his ideas but approaches the specific discourse on and about Gurdjieff and Sufism in the context of contemporary religious and spiritual teachings particularly in the United States and highlights some of the adaptive boundary crossing and hybrid features that have led to the continuing influence of Sufism *The British National Bibliography* Arthur James Wells, 1968 **The Psychology of Man's Possible Evolution, [by] P.D.
