**Games vs. Hardware. The History of PC video games** Bogdan Ion Purcaru, 2014-03-13 My two biggest passions concerning computers are hardware and gaming I wrote this book because I don't want that important pieces of history regarding computer hardware games and in a smaller amount the 80's operating systems to be forgotten and lost I want everyone to appreciate the hardware and software industry and especially the people behind them as they worked many days and nights to deliver us fast and advanced computers and entertaining and complex games

**Computer Games and Instruction** J. D. Fletcher, Sigmund Tobias, 2011-05-01 There is intense interest in computer games A total of 65 percent of all American households play computer games and sales of such games increased 22.9 percent last year The average amount of game playing time was found to be 13.2 hours per week The popularity and market success of games is evident from both the increased earnings from games over 7 Billion in 2005 and from the fact that over 200 academic institutions worldwide now offer game related programs of study In view of the intense interest in computer games educators and trainers in business industry the government and the military would like to use computer games to improve the delivery of instruction Computer Games and Instruction is intended for these educators and trainers It reviews the research evidence supporting use of computer games for instruction and also reviews the history of games in general in education and by the military In addition chapters examine gender differences in game use and the implications of games for use by lower socio economic students for students reading and for contemporary theories of instruction Finally well known scholars of games will respond to the evidence reviewed

**Advanced Intelligent Paradigms in Computer Games** Norio Baba, Hisashi Handa, 2007-06-26 The evolution of technologies has greatly changed the basic structure of our industry and nature of our daily lives Industries which did not exist several decades ago have made remarkable progress in recent years and our lives One of the most typical examples is the computer game industry This book presents a sample of the most recent research concerning the application of computational intelligence techniques and internet technology in computer games This book contains eight chapters The first chapter by N Baba and H Handa is on utilization of evolutionary algorithms to increase excitement of the COMMONS GAME It is shown that the original COMMONS GAME which is one of the most popular environmental games has been made much more exciting by the intelligent utilization of the two evolutionary algorithms The second chapter by H Barber and D Kudenko is on adaptive generation of dilemma based interactive narratives In this chapter they present an interactive narrative generator that can create story lines that incorporate dilemmas to add dramatic tension They also briefly touch upon the possibility that their work could provide a useful tool for making dramatically interesting game playing possible The third chapter by J Tongelius S M Lucas and R D Nardi is on computational intelligence CI in racing games The authors suggest that CI techniques can be used for various purposes such as controller evolution for the racing and track evolution for a proficient player
