Failing Universities Howard Karger, David Stoesz, 2024-10-31 Colleges and universities were once places where students came to learn experts intellectuals and others came to teach and where knowledge was created Today America's higher education system is severely compromised by commodification and corporatization which have transformed higher education into a marketplace This book examines the effects of these transformations providing a comprehensive critique of the problems the sector faces It outlines how higher education's commodification has impacted areas including affordability access waste hierarchal administrative structures faculty governance the college sports industrial complex and status and social mobility based on institutional prestige The authors explore alternative policy solutions and examples of systems of higher education that are both effective and cost effective They propose a forward looking agenda for structural reform that is less expensive and more educationally sound than the current model Emphasising social cohesion sustainability a respect for diversity and an understanding of democracy and democratic principles Failing Universities offers alternative solutions for US higher education to return to its basic mission

Rankings – Soziologische Fallstudien Leopold Ringel, Tobias Werron, 2019-09-03 Rankings sind in der modernen Gesellschaft allgegenwärtig Athleten Hotels Nationalstaaten Unternehmen Universitäten Kunsttreibende und viele andere sehen sich Leistungsvergleichen in der Form von regelmäßig veröffentlichten Ranglisten ausgesetzt Die Beiträge des Sammelbandes nähern sich dem Phänomen aus einer genuin soziologischen Perspektive und untersuchen u.a. die Produktion Verwendungsweisen Institutionalisierung und Effekte von Rankings in unterschiedlichen gesellschaftlichen Feldern

The Alumni Factor The Alumni Factor, 2013-09-10 This book began with a simple premise that there is a better way to assess and rank colleges and universities in America than those currently being offered The primary outcomes of most of today's rankings are 1 To provide readers a view of what life is like as an undergraduate and 2 To give insight into who comes into the college The Alumni Factor on the other hand is more interested in who comes out The aim of this guide is to describe how well a college or university actually develops and shapes its students and what becomes of them after they graduate The Alumni Factor is interested in the actual outcomes experienced by college graduates and the role their college played in creating those outcomes The Alumni Factor believes this information regarding graduate outcomes is truly essential to understanding and assessing our colleges and universities today In line with these goals The Alumni Factor provides a detailed in depth profile of graduates from 225 of our nation's top colleges The profiles were constructed almost entirely with data and insights from the actual college alumni themselves Readers will find The Alumni Factor to be a fascinating look at the incredibly diverse academic social and cultural choices available to capable students today
