SWOT analysis of Netflix Emmy Bethmann, 2020-06-08 Seminar paper from the year 2018 in the subject Business economics, Offline Marketing and Online Marketing, grade 1.0, University of Applied Sciences Hamburg, Hochschule Macromedia course, Lehrprojekt 1, language English, abstract: In this project thesis, a SWOT analysis will be performed on the media company Netflix Inc. Netflix is the world's leading internet entertainment service with over 109 million members in over 190 countries. It ranks place 28 in 2017's list of the top 100 world's largest media companies. The success of Netflix has increased constantly in recent years. The reason for this is the evolution of media consumption. The new generation watches series and movies on streaming platforms like Netflix and no longer on television. People have become more independent and can decide for themselves when and where they want to follow their series and movies. Netflix's influence grew in the past, but the fight about the TV has not started yet. One day in the near future, it will commence, and Netflix needs to be prepared for that. In this project thesis, a detailed analysis of the strengths, weaknesses, opportunities, and threats of Netflix will be conducted. The special challenge for Netflix is to have a good plan as soon as the cable TV programmes try to attack. Different possibilities of offering better and more customer-oriented content will be analysed. Will Netflix eventually replace the traditional television as we know it and become the number one provider for streaming services? This project thesis will analyse the current situation and in the end, a recommendation for Netflix's future will be given.
