The Science of Congregation Studies Leslie J. Francis, David W. Lankshear, 2022-01-01 During the past two decades the Science of Congregation Studies has blossomed significantly in the UK as well as within the USA and Australia In this illuminating and thought provoking volume Leslie J Francis research group draws on the Signs of Growth Survey conducted throughout the Anglican Diocese of Southwark to illustrate how the strength of combined qualitative and quantitative research methods can draw on the insights of psychological theory sociological theory and empirical theology to illuminate pressing questions of relevance to the sociology of religion psychology of religion practical theology and pastoral studies Individual chapters discuss the missing generation of young people the greying generation aged seventy and over how occasional churchgoers express belonging and commitment connections between psychological type and religious motivation and the distinctive characteristics of growing congregations The Impact of Church Consultancy Ian G.

Duncum, 2019-01-14 This book follows the journey of ten churches who underwent church consultancies and explores in depth both the consultancy and its outcomes Pre consultancy and post consultancy snapshots four to five years apart of vitality indicators and attendance figures using National Church Life Survey and other data are used to compare these with churches that have not undertaken church consultancies Theologies of church consultancy church health and church growth are also developed and examined intersecting with a wide body of literature including contemporary ecclesiologies Consultancy outcomes are examined in detail This includes interviews with pastors of some of those churches reflecting on their perceptions of whether and how the church consultancy impacted the health and growth of their church Conclusions are drawn about the efficacy of church consultancy in influencing the health and growth of churches as well as contexts for the best use of church consultancy This is a significant book for denominational leaders theological lecturers pastors and church leaders as they encounter lack of health in churches and seek ways forward for greater health and impact in their local communities **Archiv Für Religionspsychologie** ,2007 **South-Pacific Journal of Mission Studies** ,2003

Neo Pentecostal or Charismatic What is the situation for women in these churches embedded in societies ranked among the world's most egalitarian In what ways does their Lutheran heritage influence how these churches shape themselves today The point of departure for this study is not a predetermined normative understanding of what a Lutheran church is or should be but the fact that the churches presented here represent what Lutheranism is today in this part of the world Contributors include Anne Louise Eriksson Steinunn Arnthrudur Bjornsdottir Solveig Anna Boasdottir Niclas Blader Carl Reinhold Brakenhielm Thomas Ekstrand Arnfri ur Gu mundsdottir Goran Gunner Harald Hegstad Hjalti Hugason Roger Jensen Halvard Johannessen Peter Lodberg Benedicte Hammer Pr stholm Karin Sarja Ulrika Svalfors Merete Thomassen Marie Thomsen Marie Vejrup Nielsen and Else Marie Wiberg Pedersen
