Sharing The Risk:

Cross-country Consumption Risk Sharing, a Long-run Perspective Mr.Zhaogang Qiao,2010-03-01 This paper estimates an empirical nonstationary panel regression model that tests long run consumption risk sharing across a sample of OECD and emerging market EM countries This is in contrast to the existing literature on consumption risk sharing which is mainly about risks at business cycle frequency Since our methodology focuses on identifying cointegrating relationships while allowing for arbitrary short run dynamics we can obtain a consistent estimate of long run risk sharing while disregarding any short run nuisance factors Our results show that long run risk sharing in OECD countries increased more than that in EM countries during the past two decades

Enhancing Access to and Sharing of Data Reconciling Risks and Benefits for Data Re-use across Societies OECD,2019-11-26 This report examines the opportunities of enhancing access to and sharing of data EASD in the context of the growing importance of artificial intelligence and the Internet of Things It discusses how EASD can maximise the social and economic value of data re use and how the related risks and challenges can be addressed It highlights the trade offs complementarities and possible unintended consequences of policy action and inaction It also provides examples of EASD approaches and policy initiatives in OECD countries and partner economies
