Sheep Production And Management:

Sheep Farming for Meat and Wool Jane Court, Sue Hides, John Webb-Ware, 2010-07-23 *Sheep Farming for Meat and Wool* contains practical up to date information on sheep production and management for producers throughout temperate Australia. It is based on research and extension projects conducted over many years by the Department of Primary Industries and its predecessors and the University of Melbourne. The book covers business management, pasture growth and management, nutrition and feed management, drought management, reproductive management, disease management, genetic improvement, animal welfare and working dog health. It also gives seasonal reminders for a spring lambing wool producing flock for autumn lambing Merino ewes joined to Border Leicester rams and for winter lambing crossbred ewes joined to terminal sires. It will guide new and established farmers, students of agriculture and service providers with detailed information on the why and how of sheep production and will assist farmer groups to initiate activities aimed at increasing their efficiency in specific areas of sheep production.
