**Oppressed by Debt** Saul Schwartz, 2021-12-30 This edited collection brings together essays that explore personal debts to government. Intensive collection efforts by governments in need of revenue often cause hardship whether it is the poor in the United States going to jail because of unpaid fines, low income English people being evicted because they paid their council taxes but could then not pay their rent, or poor former students having tax refunds or social benefits taken by the government when they have defaulted on their student loans. Student loans, fines and fees arising from the justice system, benefit overpayments and unpaid taxes have all ballooned in the past decade but no other volume comprehensively addresses the various ways in which governments have become privileged creditors using their power to collect debts owed to them by their citizens. With each essay emphasizing a particular kind of debt to government, the book focuses on what happens when citizens cannot pay the debts they owe to their governments. Contributors offer pragmatic options to facilitate a movement to soften the stance of governments toward those who owe them money. The insights in this collection will be of relevance to students and academics in criminology, sociology, public policy and economics as well as policymakers and government officials interested in effecting change in this area. **Savings and Loan News**, 1983 **The Wall Street Journal**, 2009
