*Media Literacy in Action* Renee Hobbs, 2024-10-14 There's never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life work and meaningful citizenship. *Media Literacy in Action* addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read, and use. This book gives students those tools. Key features of the second edition: Critical examination of AI technologies, algorithmic personalization, data privacy, and surveillance; and the increased global regulation of digital platforms. Attention to media literacy for empowerment and protection. Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression. Full-color presentation with figures and photos to increase student engagement. Each chapter includes Media Literacy Trailblazers: Profiles of key thinkers and their theories connect students with the discipline of media literacy. Media Literacy DISCourse NEW: Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples. Learning in Action NEW: Summary and vocabulary sections combine with Analyze, Create, Reflect, and Act activities to empower students to apply ideas from each chapter. Supplemental Materials available at [www.mlaction.com](http://www.mlaction.com). Students can review key ideas, learn about more Media Literacy Trailblazers, and watch videos aligned with each chapter. Instructors can access a Teacher's Guide of best practices in class activities, homework, and projects. Also available are chapter summaries, lecture slides, YouTube playlists, and test materials. **DIY Bestseller** Olena Berezovska, 2025-08-03 This book is not just a practical guide to self-publishing; it's your personal roadmap to modern authorship where creative inspiration meets technology. Choose the best platforms for publication: Amazon, D2D, IngramSpark, Google Play, and more. Promote your book on social media, build a community, and monetize your creativity. *DIY Bestseller* is an honest conversation about how to become a 21st-century author without publishing barriers, without fear of technology, and with full confidence in your own voice and intelligence.

*A Short Media History of English Literature* Ingo Berensmeyer, 2022-08-01 This book explores the history of literature as a history of changing media and modes of communication from manuscript to print from the codex to the computer and from paper to digital platforms It argues that literature has evolved and continues to evolve in sync with material forms and formats that engage our senses in multiple ways Because literary experiences are embedded in and enabled by media the book focuses on literature as a changing combination of material and immaterial features The principal agents of this history are no longer genres authors and texts but configurations of media and technologies In telling the story of these combinations from prehistory to the present Ingo Berensmeyer distinguishes between three successive dominants of media usage that have shaped literary history performance representation and connection Using English literature as a test case for a long view of media history this book combines an unusual bird's eye view across periods with illuminating readings of key texts It will prove an invaluable resource for teaching and for independent study in English or comparative literature and media studies
