between drama and other forms of history writing Hodgdon situates performance as a type of new historicism and shows how theatrical productions like critical discourse participate in cultural work Through a study of playtexts and selected performance texts she negotiates between the critical and theatrical guises of Shakespeare to assess how past and present day theatrical practice has appropriated his work to serve particular institutional and social practices Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **A Short History of German Literature** James Kendall Hosmer, 1879
