Abstract

Communicative activities in ESL/EFL classroom contexts are productive when relevant linguistic devices are applied to literary texts. The literary effectiveness of George Bernard Shaw's "Pygmalion", an early twentieth-century play has been widely appreciated for its linguistic and literary effectiveness. The dialogic structures composed in the actions of the play reveal the varieties of spoken forms of English present during the Victorian period. After thorough scrutiny of the available research papers related to "Pygmalion" on the web, this study addressed the issues that were given less importance by the earlier studies. Considering the significance of "Pygmalion" as a prescribed coursebook in various universities across the world, this paper analysed the dialogic language of the play from a linguistic perspective. The existing literature on Pygmalion provides insights into thematic analysis from a literary and socio-linguistic perspective, referring to the class struggles and feminism. This paper examined the dialogues from a linguistic perspective. Weigand's [1] dialogic principles were applied to the utterances of the characters, thereby providing insights into the metalinguistic aspects. The paper also presents the semantic effect of the communicative exchanges that the characters engage in when they meet at different settings in the play. Also, it provides resourceful ideas to the ESL/EFL teachers on various linguistic aspects that need to be focused while teaching a literary text. The findings of the study reveal the dialogic forms in "Pygmalion" can be useful to enhance the verbal, non-verbal and written communication of ESL/EFL students.

INTRODUCTION

In the 21st century, many varieties of English are spoken across the world. Moreover, the availability of vast web resources in audio-visuals and written form gave impetus to the non-native speakers of English to listen to different varieties of English as well as access variety of written texts. In recent years, even though volumes of books are being produced in the areas of functional English and Literature and made available to the public in the form of print and electronic versions, the books that were written by eminent writers during 19th and 20th centuries are still prevalent in universities across the world.

The intensity of emotions and reasoning in George Bernard Shaw's plays draws the attention of current generation readers and students of literature to appreciate the dialogues between the characters. His skill in scripting sixty plays during his career as a playwright makes him be one of the prominent playwrights of the Victorian period. George Bernard Shaw (1856 – 1950) portrayed the life of British middle-class society during the Victorian period. In

1952, he won a noble prize in literature and the Oscar award for best writing and screenplay of 'Pygmalion.' The underlying meaning of linguistic structures in the dialogic exchanges between the characters of 'Pygmalion' reveals Bernard Shaw's skilful use of language to communicate feelings, emotions, frustrations, failures, humour and success of the middle-class society of England during the Victorian era. In the 'Preface to Pygmalion', Bernard Shaw draws the attention of the readers to "German and Spanish" in comparison to the English. He highlights the deteriorating situation of English not being accessible to Englishman. The emotional discourse through which he communicates sets the tone to make his argument for a 'phonetic enthusiast' more acceptable to the readers. In Bernard Shaw's view

"The reformer England needs today is an energetic phonetic enthusiast: that is why I have made such a one the hero of a popular play. There have been heroes of that kind crying in the wilderness for many years past."

The Genius of George Bernard Shaw Samiran Kumar Paul,2020-11-28 The Genius of George Bernard Shaw is a criticism of George Bernard Shaw s work that explores his art aesthetics philosophy and revolutionary ideas Shaw wrote his plays raising and dealing with the problems of individuals families society nations and the world It is occasionally stated that Shaw s support for totalitarianism grew out of his frustration with nineteenth century liberalism which ineffectually culminated in a disastrous world war Yet close analysis to two of Shaw s Major Critical Essays from the 1890s shows that even then Shaw expressed a desire for a ruthless man of action unencumbered by the burden of conscience to come on the scene and establish a new world order to initiate the utopian epoch Indeed further analysis of a number of plays from before the war shows the impulse to be persistent and undeniable Shaw hated disorder and he wanted to see society managed efficiently by a small caste of technocratic experts who were at the same time in Karl Popper s memorable phrase utopian social engineers He had very little confidence in the average man and woman who could not work mentally at the same speed as the Fabian executive committee his ideal of what a ruling caste would look like Shaw s ideal society what I am calling his utopian vision resembles Plato s ideal city or Comte s Religion of Humanity more than any society that has presumably ever existed on earth This need for absolute order and control found many means of expression in both his life and work and was intricately bound up with his longing for perfection This book is useful for world teachers students and research scholars in English in schools colleges universities all over the world **The Social Philosophy of George Bernard Shaw** Elsie Velma Tilley,1937
