Now The 90 Day Fitness Walking Program leaves you no excuses. The editors of Walking magazine take you through a day to day progressive workout that helps you strengthen your heart, burn fat, feel healthier, and remain injury free all in 90 days. Most importantly, they guide you to building a safe, healthy, effective exercise habit that will last a lifetime. Day one: walk for ten minutes today, tomorrow, and the next day, but take day four off, and why. Starting up: fitting exercise into your day and how to talk to your doctor about beginning a program. Chart your course: following your progress with an easy to use training log. It's the shoes: choosing the right pair and why it's so important. Stretch and strengthen: simple stand up exercises for before and after your walk to keep your entire body supple and toned. How am I doing? how to assess your improving health and fitness. Sticks and stones: whether hand weights and walking poles are right for you. Do the diet: hydration, nutrition, calorie burn, and cutting the fat. Moving forward: advanced techniques, speed workouts, and racewalking for the ambitious. Beyond the book: how to write your own exercise prescription and keep up this great habit now that the first ninety days are behind you.
