*GIFTS ARE WRAPPED PRETTY* ,Helen,Maria McCoy,2025-01-10 Not All Gifts Are Wrapped Pretty is a story of God s amazing blessings poured out on a little girl and her family as they learn to navigate a new life Going from one medical trial to another different philosophies on treating medically and a change in educational direction wasn t easy Helen and Maria McCoy decided to share their story in a very blunt forward and real way so that others just starting their journey would know they were not alone **Psychology and Mathematics Education** Gila Hanna,Laura Macchi,Karin Binder,Laura

Martignon,Katharina Loibl,2023-09-05 Modern Mathematics is constructed rigorously through proofs based on truths which are either axioms or previously proven theorems Thus it is par excellence a model of rational inquiry Links between Cognitive Psychology and Mathematics Education have been particularly strong during the last decades Indeed the Enlightenment view of the rational human mind that reasons makes decisions and solves problems based on logic and probabilities was shaken during the second half of the twentieth century Cognitive psychologists discovered that humans thoughts and actions often deviate from rules imposed by strict normative theories of inference Yet these deviations should not be called errors as Cognitive Psychologists have demonstrated these deviations may be either valid heuristics that succeed in the environments in which humans have evolved or biases that are caused by a lack of adaptation to abstract information formats Humans as the cognitive psychologist and economist Herbert Simon claimed do not usually optimize but rather satisfice even when solving problem This Research Topic aims at demonstrating that these insights have had a decisive impact on Mathematics Education We want to stress that we are concerned with the view of bounded rationality that is different from the one espoused by the heuristics and biases program In Simon s bounded rationality and its direct descendant ecological rationality rationality is understood in terms of cognitive success in the world correspondence rather than in terms of conformity to
