Better Business Christopher Marquis, 2020-09-13 A compelling look at the B Corp movement and why socially and environmentally responsible companies are vital for everyone's future. Businesses have a big role to play in a capitalist society. They can tip the scales toward the benefit of the few with toxic side effects for all or they can guide us toward better, more equitable long-term solutions. Christopher Marquis tells the story of the rise of a new corporate form: the B Corporation. Founded by a group of friends who met at Stanford, these companies undergo a rigorous certification process overseen by the B Lab and commit to putting social benefits, the rights of workers, community impact, and environmental stewardship on equal footing with financial shareholders. Informed by over a decade of research and animated by interviews with the movement's founders and leading figures, Marquis's book explores the rapid growth of companies choosing to certify as B Corps both in the United States and internationally and explains why the future of B Corporations is vital for us all.

The new online trade Gerrit Heinemann, 2023-03-30 This book presents developments and future trends in e-commerce which is shaped by customers' new digital communication and consumption patterns. Gerrit Heinemann sheds light on e-commerce business models, channel excellence, as well as success factors such as digital time advantages and customer centricity. He analyzes the digital challenges and highlights the consequences and opportunities associated with online commerce. Recognized best practices illustrate how successful digital commerce works and what the lessons learned of the past years are. The 13th edition describes which new approaches will shape the future of online retail and which developments will remain long-term issues. While, for example, app and smartphone commerce, including mobile payment, continue to be long-running issues, the environmental issue is coming at online commerce with a concentrated charge. This means that people's growing need for more sustainability and consideration for the environment has now also arrived in e-commerce. This work is therefore devoted to sustainable e-commerce in the context of online logistics, which runs counter to the new trend towards quick commerce. The topics of climate neutrality and returns management are also increasingly coming into focus. In addition, current topics such as the marketplace theme and social commerce will be explored in greater depth. Furthermore, numerous new legal requirements are taken into account, which place increased obligations on marketplace operators, in particular. The content: Meta-targeting and business ideas in online retailing; Business model of online trade; Forms of online trade; Business systems and benchmarks in e-commerce; Best practices and risks in online retailing.

Microsoft Ranjay Gulati reveals the fatal mistakes leaders unwittingly make when attempting to implement a reason for being. Moreover he shows how companies can embed purpose much more deeply delivering impressive performance benefits that reward customers suppliers employees shareholders and communities alike. To get this right leaders must fundamentally change not only how they execute purpose but also how they conceive of and relate to it. They must practice what Gulati calls deep purpose furthering each organisation's reason for being more intensely thoughtfully and comprehensively than ever before. As he argues a deeper engagement with purpose can serve as a radically new operating system enhancing performance while also delivering meaningful benefits to society. It's the kind of inspired thinking that businesses and the rest of us urgently need. Purpose isn't a nice to have in the business world anymore. It's a must have. This comprehensive guide breaks down why cultivating purpose isn't just the right thing for businesses to do it's the smart thing too. Carmine Di Sibio Global Chairman and CEO EY. Uses a combination of great stories and thoughtful analysis to suggest that we must find a way to change the purpose of our corporations if we are to build a society that works for all of us. Rebecca M Henderson John Natty McArthur University Professor at Harvard University. Fresh balanced highly readable and deeply informed. John Pepper former Chairman and CEO of P G Thought provoking and insightful. Accountable offers a pragmatic and original roadmap to transform capitalism into a system that's more inclusive sustainable and just. Dr Rajiv J Shah President of The Rockefeller Foundation. Capitalism is failing and the tools we are relying on to fix it corporate social responsibility divestment impact investing and government control are only making things worse. Chevron boasts about the 50 million per year it spends on renewable energy whilst it spends 200 times that on oil exploration. Goldman Sachs touts its 10 000 Women initiative but its board ranks 358th out of the Fortune 500 for gender diversity and women earn 55% less than men do on average. By focusing on corporations rather than people we've put our faith in empty trends and brand focused window dressing. Why should those responsible for our current crisis be trusted to fix it. In Accountable authors Michael O'Leary and Warren Valdmanis offer a blueprint for everyone to take responsibility for using their economic power as consumers as investors as employees and as voters to trigger a fundamental shift away from an economy that is unethical unfair and destructive to our environment and institutions. Their investigation cuts through the tired dogma of current economic thinking to reveal a hopeful truth. If we can make our corporations accountable to a deeper purpose we can make capitalism both prosperous and good. Trenchant and gripping this is an indispensable guide and call to action for citizens to take control of our economic power and hold corporations to a higher standard. **The New York Times Magazine** ,2010
