The New Engineering Contract Arthur McInnis, 2001 The introduction of the New Engineering Contract NEC encourages a systematic approach to contracting which is multidisciplinary in nature and fully interlocked in form The NEC is intended by its supporters to be more flexible and easier to use than any current leading traditional standard forms of contract It is believed that these features reduce adversariality and disputes The NEC seeks to achieve this aim primarily through cooperative management techniques and incentives built into the NEC's procedures This commentary analyses and evaluates these and related claims of innovation The New Engineering Contract A legal commentary examines the background to the NEC its design objectives structure procedures and likely judicial interpretation to determine whether it improves upon the traditional standard forms of contract Special attention is given in the commentary to the development and the significance of the principles underlying preparation of the NEC as well as the arguments in favour of and against them Throughout the detailed commentary upon the NEC clauses comparisons to the traditional forms are also made to highlight unique features and principles of general application The conclusion reached is that the NEC does make a significant contribution to the development of standard forms of contract addresses many of their shortcomings and offers one of the best models for their

future development direction and design The commentary draws upon the body of the project management literature and legal analysis to support its conclusions The New Engineering Contract A legal commentary will be essential reading for lawyers barristers and solicitors as well as engineers and project managers **Journal of Planning and Environment Law** ,1993 *Local Government Contracts and Procurement* Helen Randall,2002 Aiming to assist lawyers and purchasing managers and managers in client departments with complex contracts this guide offers guidance through the key stages of procurement tendering selecting negotiating and managing commercial contracts in the context of Best Value **Legal Aspects of Standardisation in the Member States of the EC and EFTA.: Country reports** Harm Schepel,2000 **European Legal Book Index** ,1994 The British National Bibliography Arthur James Wells,2009 *Law Books in Print: Subject index* Nicholas Triffin,1994 **Current Publications in Legal and Related Fields** ,1994 *Law Books Published 1993 Suppl* ,1994 **Consortia Agreements in the International Construction Industry:With Special Reference to Egypt** Hani Sarie-Eldin,1996-05-20 This book analyses the internal relationships between the parties of the international construction cooperation and also their external responsibilities To The employer under the works contract including such international standard agreements as FIDIC Civil Engineering contract In addition it demonstrates that the legal systems e g English Egyptian and French law have not kept pace with the latest developments in the evolving contractual characteristics and economic significance of cooperation among two or more international construction companies The book concludes that a comprehensive contractual framework is necessary and statutory changes may be deemed desirable This work will be of interest to practitioners in the field of construction law and consortium agreements **Whitaker's Books in Print** ,1998 **Current Law Index** ,2007 Law Books Published ,1996 *Chambers UK 2009* Tracey Sinclair,2008-11 An independent guide to the top solicitors barristers law firms and barristers chambers in the United Kingdom **The Cumulative Book Index** ,1995 A world list of books in the English language Law Books in Print: Author index Nicholas Triffin,1997
