Politics of Urban Knowledge Bert De Munck, Jens Lachmund, 2023-03-23 This book uses politics of urban knowledge as a lens to understand how professionals administrations scholars and social movements have surveyed evaluated and theorized the city identified problems and shaped and legitimized practical interventions in planning and administration Urbanization has been accompanied and partly shaped by the formation of the city as a distinct domain of knowledge This volume uses politics of urban knowledge as a lens to develop a new perspective on urban history and urban planning history Through case studies of mainly 19th and 20th century examples the book demonstrates that urban knowledge is not simply a neutral means to represent cities as pre existing entities but rather the outcome of historically contingent processes and practices of urban actors addressing urban issues and the power relations in which they are embedded It shows how urban knowledge making has reshaped the categories rationales and techniques through which urban spaces were produced governed and contested and how the knowledge concerned became performative of newly emerging urban orders The
