Punjab Colonial Challenge And Popular Response:

Artisans, Sufis, Shrines Hussain Ahmad Khan, 2014-12-19 In nineteenth century Punjab a cultural tug of war ensued as both Sufi mystics and British officials aimed to engage the local artisans as a means of realizing their ideological ambitions. When it came to influence and impact the Sufi shrines had a huge advantage over the colonial art institutions such as the Mayo School of Arts in Lahore. The mystically inspired shrines built as a statement of Muslim ruling ambitions were better suited to the task of appealing to local art traditions. By contrast the colonial institutions rooted in the Positivist Romanticism of the Victorian West found assimilation to be more of a challenge. In questioning their relative success and failures at influencing local culture the book explores the extent to which political control translates into cultural influence. Folktales, Sufi shrines, colonial architecture, institutional education methods and museum exhibitions all provide a wealth of sources for revealing the complex dynamic between the Punjabi artisans, the Sufi community and the colonial British. In this unique look at a little explored aspect of India's history Hussain Ahmad Khan explores this evidence in order to illuminate this web of cultural influences. Examining the Sufi artisan relationship within the various contexts of political revolt, the decline of the Mughals and the struggle of the Sufis to establish an Islamic state, this book argues that Sufi shrines were initially constructed with the aim of affirming a distinct Muslim identity. At the same time art institutions established by colonial officials attempted to promote eclectic architecture representing the British Indian empire as well as to revive the pre-colonial traditions with which they had previously seemed out of touch. This important book sheds new light on the dynamics of power and culture in the British Empire.

Holy Places Kathryn Hurlock, 2025-03-06 A timely wide ranging and well researched book that expanded my understanding of pilgrimage. Tristan Gooley, author of *How To Read A Tree*. This year as they have for millennia many people around the world will set out on pilgrimages. But these are not only journeys of personal and spiritual devotion; they are also political acts, affirmations of identity and engagements with deep rooted historical narratives. Kathryn Hurlock follows the trail of pilgrimage through nineteen sacred sites from the temples of Jerusalem to the banks of the Ganges, by way of Iona, Lourdes, Amritsar and Buenos Aires, revealing the many ways in which this ancient practice has shaped our religions and our world. Pilgrimages have transformed the fates of cities, anointed dynasties, provided guidance in hard times and driven progress in good. Filled with fascinating insights, *Holy Places* unveils the complex histories and contemporary endurance of one of our most fundamental human urges.

Punjab Kripal Chandra Yadav, 2003 The writings on Punjab are in most cases long on rhetoric but short in substance. Surprisingly there is no dearth of people even today who still carry a heavy baggage of outdated notions about Punjab history. The six essays given here try to correct some of these wrong notions at length.
