EBOOK: Financial Accounting (GE), 8e Robert Libby, Frank Hodge, Patricia Libby, 2016-04-16 EBOOK Financial Accounting GE 8e **Consumer Lending in France and America** Gunnar Trumbull, 2014-08-11 At the beginning of the 20th century consumer credit in the United States was perceived as unfair and exploitative Social reformers fought to limit the economic and social impact of small lenders they decried as loan sharks Reputable businesses steered clear of sales

credit because of the questionable consumers that it would attract By the 1970s however credit in America had been reimagined as a legitimate tool of household finance that was understood to have broad social and economic benefits This transformation in the moral economy of credit accompanied a revolution in lending technologies and the regulatory treatment of consumer credit Ultimately these changes allowed American households to amass unprecedented debt debt that eventually precipitated the worst financial crisis of postwar America To understand the origins of that crisis we need to understand not just the shifting habits of consumers but also what happened to lenders as the public moved from opposing credit to embracing it This book traces how that transformation occurred Nearly all accounts of the origins of American consumer credit have focused exclusively on the U S experience Single country case studies have their virtues But they do not allow the observer easily to differentiate what is unusual about the U S case from what is common even to countries with very different credit practices
