Disney Plus Update Clearance:

, **Pivoting and Producing for Online TV** Alexa Scarlata, 2025-05-02 The introduction and diffusion of international subscription video on demand SVOD services in the 2010s represented the most significant disruption of established national broadcast and pay TV ecologies in their long history Using an in depth Australian case study this book narrates this profound period of proliferation It also considers how incumbent commercial networks pay TV providers and public service broadcasters developed into online TV providers albeit in assorted ways In so doing it conceives of the early impact of online TV 2015 2020 more broadly and acknowledges the role of both new and old TV players The industry wide shift towards online TV over this period also impacted existing television drama production cultures SVOD services provided a fruitful avenue for the distribution of existing archives and slowly began to support the production of new Australian content with an increasingly global focus However the formal arrival of online TV certainly did not usher in the boom in original local television drama many anticipated Pivoting and Producing for Online TV Australia s Transition advances the macro analysis of television production strategies This book will be useful to students and researchers interested in media film and cultural studies *Billboard* ,2000-01-22 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

Billboard ,1999-08-07 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends ASCAP News ,1958 Computerworld ,2007-04-30 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Report on Competition Policy** Commission of the European Communities,1995 Report on Competition Policy, 1995 Commission of the European Communities,European Communities Staff,1996 The Report on Competition Policy is published annually by the European Commission in response to the request of the European Parliament made by a Resolution of 7 June 1971 This Report which is published in conjunction with the General Report on the Activities of the European Union is designed to give a general view of the competition policy followed during the past year European competition policy in 1995 was marked by a sharp increase in the number of cases submitted to the Commission and in the number of decisions taken Looking at the whole range of areas covered restrictive agreements and concerted practices mergers and state aid the number of new cases submitted to the Commission was more than one third up on the previous year A large part of this increase is due to the fact that three new member countries joined the European Union on 1 January

1995 However the figures also show that businesses are increasingly aware that their playing field is Europe as a whole In addition the pressure of competition gives firms an incentive to cooperate or merge so as to remain competitive Competition policy plays a key role in creating an environment that is favourable to businesses this being crucial to lasting growth in the European economy and to job creation Another crucial competition policy objective is consumer protection The single market must first and foremost serve people It must be ensured through strict application of the competition rules that consumers have freedom of choice between quality products at competitive prices Let me illustrate Commission efforts in pursuit of these two competition policy objectives in 1995 by highlighting a few of the most significant examples The Commission took action against business practices that block parallel imports and prevent consumers from taking advantage of price differences between Member States With the same end in view the new Regulation on motor vehicle distribution in Europe while allowing structured networks that provide after sales service ensures that individual consumers are free to carry out parallel imports The Commission is similarly on its guard against firms that restrict market access for new competitors
