Book Description

Everyone s talking about AI agents but how do you build one that works in the real world Not a toy demo but an agent that solves real problems saves time and integrates into workflows With vague frameworks fragmented tooling and endless hype most developers are left without a clear path The hardest part isn t technical it is knowing where to start This book gives you that starting point It s a complete guide to building intelligent AI agents and agentic systems using the official OpenAI Agents SDK It begins by grounding you in the core concepts design principles and architecture of AI agents how they differ from other traditional systems their advantages and why that matters Through practical step by step projects you ll master every feature of the SDK tools memory RAG multi agent orchestration tracing handoffs and more while contributing to an end to end agent system that grows in complexity Projects include a custom support agent invoice and inventory assistant health advisor sales trainer and data analyst giving you production ready skills By the end you ll know how to design build and deploy agentic systems that interact with APIs query databases hand off to external systems and drive meaningful outcomes You won t just understand AI agents you ll be ready to ship them

What You Will Learn

- Understand the core principles of AI agents and why they matter
- Use the OpenAI Agents SDK to build real working agents from scratch
- Design both single agent and multi agent systems
- Integrate external tools APIs and data sources to extend agent capabilities
- Add memory and stateful context to your agents so they can remember and adapt over time
- Coordinate agent to agent handoff orchestrations
- Secure monitor and scale agents in production

Who this book is for

This book is for LLM engineers developers tech savvy professionals analysts and consultants who want to build practical agentic AI solutions using the OpenAI SDK A basic understanding of Python and AI concepts is recommended but no prior experience with agents is required Whether you re exploring agents for the first time or want to deepen your skills with hands on projects this guide provides structured production ready knowledge
