hidden agenda in Elon Musk and Jeff Bezos's space exploration to colonize Mars and the Moon The media portray them as Americans who are rekindling space exploration that was once dominated by the rivalry between the United States and the extinct Soviet Union Before you write off what I have just said hear me out For more than a decade I've closely studied the lives of Bezos and Musk I have watched as Jeff Bezos dominated online retailing and Elon Musk building Tesla and SpaceX As

each spread their wings to critical industries I began to notice a pattern that only leads to one conclusion the hidden agenda each harbors On the surface it appears each of them is interested in dominating space However when you study how they operate in every industry you cannot help but conclude that there is more to their modus operandi If you would like to find out what this hidden agenda is and how Musk and Bezos are dominating the industries they each operate in then BEZOS vs MUSK is a book you should read In this book I Dan Bleigh an MBA graduate will be providing a unique angle of looking into the innovations and technology that Bezos and Musk use to dominate I compare the two top richest people in the world side by side You ll learn the logistics strategy that each of these entrepreneurs applies to move their companies to the top Here s more of what you ll learn in this book Two dreams that Elon Musk has that ll take him to the top of the air transportation industry Discover two images in the conclusion that shows what Elon Musk and Jeff Bezos are planning when they re done with their respective projects What Jeff Bezos did to force NASA to freeze the Artemis program for a few months An initiative that Elon Musk is undertaking to help increase the thinking power of human beings and why he s doing it Why Elon Musk and Amazon Web Services have funded OpenAI A potent strategy that Amazon uses to dominate an industry it never operated in before And much much more The rivalry between Jeff Bezos and Elon Musk is intense and these two billionaires are in conflict over NASA s contracts However these conflicts are hiding what is happening in reality If you want to find out the truth behind the rivalry of Bezos and Musk get BEZOS vs MUSK

Description and comparison of offline and online retail environments for cars Irene Anne McLaughlin,2016-09-26 Essay from the year 2015 in the subject Business economics Trade and Distribution grade 64% University of Ulster course BSc Business Studies language English abstract Car retailing is an increasing challenge with the steady decline in the size of dealer networks Those that continue to operate are looking at ways of improving profitability The internet has suffered from difficulties in this sector as evidenced by the departure of companies such as Autoquake and Tesco Cars To compare the offline and online sales of Cars consideration of the potential reach of consumers is required looking at the growth of the internet and potential customer base Internet usage has grown from 16 million users in 1995 to 3 035 million users in 2014 The use of Smart Phones for web search is growing at an immense rate In countries such as Africa where Internet coverage is sparse data usage is being pushed by organisations such as Huawei and their 25 mobile phone campaign This shift will mean that smartphone technology will be the platform of the future in testing purchasing and servicing cars

Tesla's Market Entry Strategy in Germany. Foreign Market Entry and Cross-Cultural Business Simon Glandien,2020-11-18 Academic Paper from the year 2020 in the subject Business economics Business Management Corporate Governance grade A course Cross Cultural Business language English abstract The purpose of this paper is to analyze and evaluate the market entry of Tesla Inc in Germany In November 2019 Tesla revealed to build a European production plant on the outskirts of Berlin in Germany The aim of this paper is to give account to the foreign market entry of Tesla Inc in Germany This leads to the following research question that guides this

paper What could be business success factors and threats of Tesla's strategy to enter the German automotive industry market Tesla Inc former Tesla Motors Inc is a car manufacturer and sells fully electric vehicles energy storage systems as well as installs operates and maintains solar and energy storage products Reuters n d The company was founded in 2003 by a group of engineers In 2008 Tesla launched their first electric vehicle to the market Tesla n d Tesla's mission is to accelerate the world's transition to sustainable energy so the car manufacturer So far most of the Tesla vehicles are produced and assembled in the United States at its main Tesla Factory in Fremont California To that Tesla operates other multiple production and assembly plants named Gigafactory such as in Fremont California Giga Nevada and in Buffalo New York Giga New York Recently in 2019 Tesla opened its first Gigafactory outside the American region in Shanghai China Giga Shanghai A strategic step to internationalize the company and to enter the Chinese market This strategic action can be explained by the fact that China is the largest car market in the world and the government is speeding up the expansion of electric mobility Furthermore manufacturing in Shanghai saves Tesla from having to transport its vehicles overseas and avoids import duties incurred in China for cars from the United States However the company is not just expanding its manufacturing into China

Impact of digital transformation on business models in the automotive industry Robin Mayer, 2023-06-12 Master's Thesis from the year 2023 in the subject Engineering Automotive Engineering grade 1.5 University of Applied Sciences Aalen language English abstract Digital transformation and disruptive business models of new market players create unprecedented uncertainty in the automotive industry One of the main reasons is the lack of understanding for the need of adapting business models to a changing business environment due to new technologies and shifting customer wants and needs Even the automotive industry is not spared from digital Darwinism according to which it is not the strongest or most intelligent of a species that survives but rather the one that adapts best to change What opportunities do OEMs have to transform their business models How can best practices be used to generate new value creation and what influence does the transformation of the business model have on the ecosystem What role will the dealer play in the future and how can he still deliver added value to the OEM This paper provides an in depth insight into the world of automotive sales as well as a detailed analysis of the status quo Best practices based on successful business model transformations of the top tier OEMs are the basis for a deeper understanding and serve other companies as foundation for developing digital business models The goal of this paper is to examine the impact of digital transformation on the dealer business model and how they can continue to deliver value to the OEM For this purpose guided expert interviews are conducted with 16 experts from various areas of the automotive industry Subsequently a qualitative content analysis according to Mayring will be used to assess the challenges and impacts of the agent business model and to develop improvement measures and key topics that offer added value for OEMs The results of this thesis support dealers in understanding their future role in the automotive industry and show design recommendations for a future proof business
