Simple Science Experiments:

47 Easy-to-Do Classic Science Experiments Eugene F. Provenzo, Asterie Baker Provenzo, 2012-07-31 Here is a highly motivating book for grade school students that will introduce them to many of the world's most popular and historically significant scientific experiments. They'll learn about gravity simply by following the acrobatic antics of an ordinary coin. By trying to blow an egg out of a cup, they'll discover the principles of air pressure. Dancing soap bubbles will help them understand the effects of static electricity, and by dropping quarters into a full glass of water without causing it to overflow, they'll study the effects of surface tension. These and over 40 other experiments have been carefully selected by noted educators Eugene and Asterie Baker Provenzo to familiarize children with classic science experiments involving optics, inertia, air pressure, magnetism, sound, topology, light, density, vibration, prisms, elasticity, gases, vacuum, perspective, geometry, centrifugal force, buoyancy, color, and much more. Some experiments, such as the optical Newton's Rings, are hundreds of years old. Still others, like the straw lever test, are based on Greek experiments with leverage and the center of gravity first carried out thousands of years ago. Easy-to-follow instructions and illustrations show youngsters how to perform each experiment, most of which are prefaced with historical background, a list of necessary materials, and an explanation of key terms. Almost all experiments can be carried out with common household items: tissue paper, scissors, tapes, rubber balloons, pens, pencils, etc., and can be worked at home or in the classroom to demonstrate specific scientific principles or to supplement a science curriculum unit. Sources for all historical illustrations given in the text are listed at the end of the book.

Super Simple Science Experiments for Curious Kids Andrea Scalzo Yi, 2022-07-19 Fun and Easy Hands-On Projects for At-Home Science Turn your home into your laboratory as you explore and experiment through dozens of science projects with Andrea Scalzo Yi, bestselling author and the creative mastermind behind *Raising Dragons*. With just a few common household items, you'll learn creative problem-solving skills, nurture your curiosity, and experiment just like a real scientist. Jam-packed with 100 exciting experiments, you'll never run out of projects to amaze and astound. Create colorful reactions with a Lemon Volcano, investigate surface tension using Magic Milk, and explore centripetal force with your own Tornado in a Bottle. You can even unlock your inner artist with beautiful Sun Print artwork; all you need is the sun and some paper, no paint required. Each engaging experiment includes a simple explanation of the science behind it, as well as variations on the project so you and your family can make the most of each activity. Get out your lab coats and strap on your safety goggles; it's time to tinker and test with *Super Simple Science Experiments for Curious Kids*.

Simple Science Experiments with Elmo and Friends: Water and Earth Gina Gold, 2020-03-18 Join Elmo, Super Grover, 2, 0, and the rest of the gang to learn about science. Kids will be captivated by the playful illustrations and wealth of information as their favorite characters lead them through numbered steps of simple at-home experiments, including making a tabletop volcano and an indoor rainstorm. Plus, there are Murray's Science Words, on-the-street sidebars, journal pages, mazes, and more.

The 101 Coolest Simple Science Experiments

Holly Homer, Rachel Miller, Jamie Harrington, 2016-04-19 Perform Mind Blowing Science Experiments at Home You'll have the time of your life conducting these incredible wacky and fun experiments with your parents teachers babysitters and other adults You'll investigate answer your questions and expand your knowledge using everyday household items The Quirky Mommas from the wildly popular Kids Activities Blog and authors of the bestselling 101 Kids Activities That Are the Bestest Funnest Ever have done it again with this book of ridiculously amazing simple science experiments You can do things both indoors and outdoors The handy mess meter preparation times and notes on the level of supervision will keep your parents happy and you safe Experimenting is really fun and you will have a blast being a scientist You will be so entertained you might not notice you're also learning important things about the world around you Some experiments to master Balloon Powered Car Burst Soap Cloud Hovercraft Creeping Ink Bendy Bones Electromagnet Paper Helicopters Unbreakable Bubbles Now put on your lab coat and let's get experimenting
