**"Australian Art and Artists in London, 1950-1965"** Simon Pierse, 2017-07-05 Subtle and wide ranging in its account this study explores the impact of Australian art in Britain in the two decades following the end of World War II and preceding the Swinging Sixties In a transitional period of decolonization in Britain Australian painting was briefly seized upon as a dynamic and reinvigorating force in contemporary art and a group of Australian artists settled in London where they held centre stage with group and solo exhibitions in the capital's most prestigious galleries The book traces the key influences of Sir Kenneth Clark Bernard Smith and Bryan Robertson in their various and varying roles as patrons ideologues and entrepreneurs for Australian art as well as the self definition and interaction of the artists themselves Simon Pierse interweaves multiple issues of the period into a cohesive historical narrative including the mechanics of the British art world the limited and frustrating cultural scene of 1950s Australia and the conservative influence of Australian government bodies Publishing for the first time archival material letters and photographs previously unavailable to scholars either in Britain or Australia this book demonstrates how the work of expatriate Australian artists living in London constructed a distinct vision of Australian identity for a foreign market

Woollacott signal the book's focus on the erotic and gendered spaces and on popular aspects of modernity. They provide the central focus of the material through such vital and dynamic categories as the modern, the erotic and the primitive. As essential components of the historical processes of innovation and modernisation, these central questions of gender and public sociality are taken up in diverse ways in the other chapters, forming a varied and exciting study of a range of creative Australian engagements with modern international life and popular culture.

**The Slow Evolution of Foster Care in Australia** Nell Musgrove, Deidre Michell, 2018-08-10. This book draws on archival, oral history and public policy sources to tell a history of foster care in Australia from the nineteenth century to the present day. It is primarily a social history which places the voices of people directly touched by foster care at the centre of the story but also within the wider social and political debates which have shaped foster care across more than a century. The book confronts foster care's difficult past, death and abuse of foster children, family separation and a general public apathy towards these issues but it also acknowledges the resilience of people who have survived a childhood in foster care and the challenges faced by those who have worked hard to provide good foster homes and to make child welfare systems better. These are themes which the book examines from an Australian perspective but which often resonate with foster care globally.
