Indigenous Teaching Disciplines and Perspectives for Higher Education Kgari-Masondo, Maserole Christina,2025-03-28 Literature indicates that sociolinguists and

educationists often claim multilingual practice and Africanizing and Indigenizing education will jeopardize national unity and social cohesion. Such claims delay the implementation of decolonization policies and the transformation of the curriculum under false assumptions. However, research reveals many Indigenous students struggle with higher educational content which is often presented through languages that are unfamiliar to them. This implies that there is a need to uncover resources that can assist in necessitating the implementation of Indigenous education globally and that all multilingual strategies in education must be based on quality mother tongue illustrative content as its foundation. As a result, further research on the subject is necessary to enhance teaching strategies that reach all Indigenous students.

Indigenous Teaching Disciplines and Perspectives for Higher Education illustrates the need for the implementation of a decolonized teaching and learning curriculum with integrated resources as models. It explores how to improve Indigenous knowledge content and teaching methods. Covering topics such as cultural identity, African research methodology and Indigenous media, this book is an excellent resource for teachers, policymakers, school administrators, researchers, scholars, academicians and more. *Impacts of Digital Technologies Across Generations* Anshari, Muhammad, Almunawar, Mohammad Nabil, Ordóñez de Pablos, Patricia, 2025-02-13. The rapid advancement of digital technologies have profoundly impacted various aspects of our lives transcending generational boundaries. From the way we communicate, work, learn and entertain ourselves to broader societal structures such as governance, business operations, public services and policymaking, the digital revolution has ushered in a paradigm shift that has transformed societies on a global scale. It is essential to explore the multifaceted impacts of digital technologies across different generations. *Impacts of Digital Technologies Across Generations* provides a comprehensive understanding of how digital technologies have influenced and shaped the lives of individuals from different generational cohorts. By bringing together a diverse range of perspectives and research findings, this book unravels the complex interplay between technological advancements and generational dynamics. Covering topics such as digital technologies adoption, lifelong learning and remote work, this book is a valuable resource for researchers, academicians, policymakers, practitioners, educators, postgraduate students and more.

Artificial Intelligence Tools in Education Paolo Ercoli, Robert Lewis, 1988

AI Expert, 1986 **AI Magazine**, 1992 Artificial Intelligence Andrew Kusiak, 1988. The rapid development of manufacturing and computer technologies has generated new problems. To solve these problems, modern tools and techniques are required. Artificial Intelligence (AI) is one of the most appropriate techniques for solving complex industrial problems. This series represents an effort to disseminate valuable information on applications of AI in industry which are becoming well utilised throughout the world. AI has been recognised in many industrial countries as a means of solving complex problems arising in modern industry. All books in this series will highlight issues that arise in the development and application of AI systems. The series is intended for production and industrial engineers, managers, system designers and programmers.
