**Culturally Competent Kids** Samantha Sweeney, 2025-05-06 A book for parents that provides a science based framework for helping to raise CULTURALLY COMPETENT KIDS This book is for the parent who knows that culture is important It is for the parent who wants to teach their child about the world around them but doesn t know where to start Let this book be your starting point and your guide The goal of Culturally Competent Kids is to help you raise your children to become adults who respect and celebrate differences rather than simply tolerating them Research shows that while biases begin to develop at age 6 their origins begin much earlier Unfortunately diversity and culture are treated as though they are

grownup concepts as if children don't recognize that diversity is all around them. Human beings naturally categorize and your kids will develop preferences, prejudices and opinions about people who are different from them. Therefore it is important for parents to take an active role in helping their children see, understand and develop their understanding of people and cultures that are different. As Dr. Sweeney says, "We don't have to all be friends or even like each other to treat each other with respect." This book provides a science-based framework with ideas and options to explore as you embark on this cultural competence journey with your kids and also with yourself.

The Art of Longevity Rod Perez, 2024-05-14

There is often a disconnect between the raw spirit of our younger selves when energy and enthusiasm were inexhaustible and our bodies rarely let us down and the limitations and demands we increasingly face over time. Our vitality can fade as we stress over career, family, financial security and just staying mentally afloat. We allow poor nutrition and bad habits to take root while our frantic mind takes the wheel. Worst of all, we neglect our fire, the things that we love and give our lives meaning. Do we wave the white flag? Or do we bring oxygen back to that flame? If we've managed to keep the fire flickering, how do we stoke it into an inferno? This book will provide you with all the tools to bring you back into equilibrium with your whole self and return you to your passions, fit and focussed living with joy and purpose through every season of life. You'll discover the life-changing benefits of Routine, discipline, mindset, motivation, Mobility, flexibility, core strength, including a photographic step-by-step guide through a variety of essential movements and a 12-week exercise program to kickstart your longevity journey. Nutrition, hydration, sleep, Breathwork, meditation. Rodrigo Perez is a professional coach and founder of Holistic Pro Health Performance, who has worked with some of the world's most successful athletes. The Art of Longevity draws on everything he's learned along his own journey for one aim: keeping people in the water on the trail in the mountains wherever their inspiration lives.

**SWAYAM VIKAS Self Development Book Summary**

Millions of years ago the earth was formed and the environment was favourable for life. Among all the animals created by nature, the animal human was also included. This three and a half-hand small human was gifted with thinking by nature and he changed the entire universe with the force of that thinking power. Human life has been made much happier by inventing different means. The speed of work has increased so much that the earth is getting smaller. So can we live on different planets now? He is looking for it with artificial intelligence. As man is progressing, his expectations are increasing, due to which stress, depression and anxiety are increasing and he is becoming unhappy. The main reason for this is his mind, which does not allow him to live peacefully. Due to increasing desires, expectations, aspirations, responsibilities and competition with others, his mind is affected and he is suffering from various mental diseases. He discovered how to control the wandering mind by studying the laws of nature and proved that a peaceful, happy life is the birthright of the human. No matter how many difficulties, crises or obstacles we face while moving towards our goals in life, we can make our own way over them. We can be the directors of our
