Filterworld Kyle Chayka, 2024-01-16 A MOST ANTICIPATED BOOK From New Yorker staff writer and author of *The Longing for Less* Kyle Chayka comes a timely history and investigation of a world ruled by algorithms which determine the shape of culture itself *Filterworld* is about how algorithms changed culture Chayka asks what is taste What is a sense of aesthetics And what happens to it when it collides with the homogenizing digital reality in which we now live Ezra Klein From trendy restaurants to city grids to TikTok and Netflix feeds the world round algorithmic recommendations dictate our experiences and choices The algorithm is present in the familiar neon signs and exposed brick of Internet cafes be it in Nairobi or Portland and the skeletal modern furniture of Airbnbs in cities big and small Over the last decade this network of mathematically determined decisions has taken over almost unnoticed informing the songs we listen to the friends with

whom we stay in touch as we've grown increasingly accustomed to our insipid new normal. This ever-tightening web woven by algorithms is called Filterworld. Kyle Chayka shows us how online and offline spaces alike have been engineered for seamless consumption, becoming a source of pervasive anxiety in the process. Users of technology have been forced to contend with data-driven equations that try to anticipate their desires and often get them wrong. What results is a state of docility that allows tech companies to curtail human experiences, human lives, for profit. But to have our tastes, behaviors, and emotions governed by computers while convenient does nothing short of call the very notion of free will into question. In Filterworld, Chayka traces this creeping machine-guided curation as it infiltrates the furthest reaches of our digital, physical, and psychological spaces. With algorithms increasingly influencing not just what culture we consume but what culture is produced, urgent questions arise: What happens when shareability supersedes messiness, innovation, and creativity, the qualities that make us human? What does it mean to make a choice when the options have been so carefully arranged for us? Is personal freedom possible on the Internet? To the last question, Filterworld argues yes, but to escape Filterworld and even transcend it, we must first understand it.

**The Vinyl Revival, Gender, and Collecting Aesthetics** Veronica Skrimisjö, 2025-09-08. The book explores record collecting and vinyl consumption in the 21st century within the context of the vinyl revival. The book highlights gender and how gender disparity is expressed in vinyl communities. Veronica Skrimisjö considers vinyl consumerism and collecting and how the collector identifies themselves within the socio-political environment of the Global North, with a particular focus on gender. The book includes considerations of Record Store Day, DIY, and D.I. together cultures, as well as the historic context needed to evaluate record collecting in the 21st century. The work is aimed at both an academic and a general readership and, as such, strikes a

more informal tone Personal experiences are emphasised throughout because vinyl consumers are not a homogenous group and it is only via personal experiences that we can understand the complexity of consumption The personal experience also helps make the content more relatable which is crucial as old stereotypes helped distance the collector from the everyday consumer Readers will benefit from a different perspective on record collecting and consumptions as the book highlights active creative consumption and provides an in depth innovative analysis of how gender inequality is constructed within this context Vanity Fair ,2018 **Parliamentary Debates (Hansard)**.
